of The Shorthorn World.**

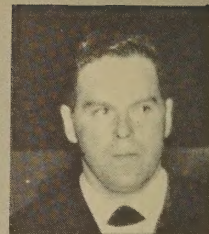

CHRIS THOMAS

ROSS THOMAS

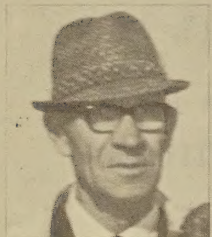

BOB GORDON

**WAYNE
GORDON**

Thomas, Gordon, Draper, Duncan

Welcome You

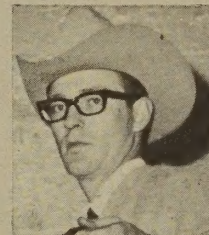

BOB DRAPER

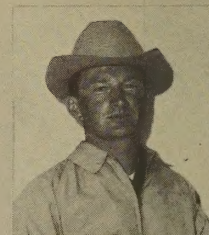

JOHN DRAPER

How can four herds unite with such combined effort to produce an offering like this?

The answer is simple: There is almost no limit to what can be accomplished provided it doesn't matter who gets the credit. These herds' one goal is to produce an offering of the best cattle they can breed as a unit. The record proves that the goal is being amply achieved.

MAC DRAPER

BOB DUNCAN

It is with pleasure that I have the opportunity to send greetings to our Canadian Shorthorn friends.

Canada has long been a fountainhead for seed stock, and it is interesting to note how the improving kind of cattle have moved back and forth across the border. The TPS Coronet Leader 21st x influence originated in the United States and is now being exported back to the U. S. in large numbers.

We should be thankful for the free trade and goodwill that exist between our countries.

All Shorthorn breeders will be interested in the results of the Thomas, Gordon, Draper, Duncan Sale, since they are among the leading breeders of modern cattle. The results of this sale will, no doubt, have some influence on the value of every Shorthorn on the North American continent.

We wish only the best for the consignors and buyers in this sale. May it prove to be a step forward for our great breed of cattle.

John

John F. Shuman
President
American Shorthorn Ass'n

It is with a great deal of pleasure that I, as president of the Canadian Shorthorn Assn. sincerely welcome you. The Thomas, Gordon, Draper, Duncan production sale has quickly become established as the top Polled Shorthorn sale of each year. These four breeders are offering Shorthorns in volume that have modern trimness, length, ample weight for age and inherent 'grow ability'. Moreover, these cattle are reproducing the same qualities for their purchasers.

The cattle business is the one bright prospect of agriculture today. Shorthorns like these are needed, that are efficient, high-gaining, and capable of producing the desirable carcasses. Commercial men and purebred breeders are talking the same language these days. At no other time has everyone connected with the beef industry been as close in their thinking on what is necessary to keep beef in the forefront of the meat industry. What is needed is more Shorthorns that can fill the bill.

This sale is again an opportunity for Shorthorn enthusiasts to improve your herd by adding some of this offering which promises to be the best yet.

Looking forward to seeing you on June 13th.

Yours truly,

Barry Andrew

President
Canadian Shorthorn Ass'n

Harris Simons

From the Sale Manager . . .

Throw the record books away. New ones will be written on June 13 at the Thomas Gordon, Draper, Duncan Polled Shorthorn sale.

And rightfully! These men have steadfastly developed a line of cattle without peer in meeting the demands of today's exacting beef cattle industry. They'll be the first to admit that they don't have all the good cattle in the world. But they'll sell as many as any herd of any breed this year.

The premium for Thomas, Gordon, Draper, Duncan cattle is hardly puffery. It's the reward of one of the most far-sighted and steadfast breeding programs ever conceived. When you've got the goods, the world will beat a path to your door.

And the choicest goods are at Thomas, Gordon, Draper, Duncan. Study the catalog carefully. Consider their achievements in performance test stations throughout the continent. Consider a matchless showing record. Moreover, consider the list of the world's most significant herds that have chosen their stock bulls and foundation females from these breeders.

But all the breed can't use the same bloodline, and these men will never fall into the dangerous trap of barn blindness. Each herd is already able to offer complete outcross blood to its customers. At least two new stock bulls have been purchased recently and will be announced on sale day. No men are more aware of the faults in their own cattle — even as they are aware of their great

strengths. No men will work harder at improving a product already much in demand.

If you are really serious about improving beef cattle and making a profitable living at it, you must be at this sale. But please come early. You could spend a rewarding day at each herd studying the careful breeding and management programs. You'll want to spend as much time as possible talking with the cattlemen of all breeds who will gather on June 13. Get to know them and consider the ideas of these successful registered and commercial operators.

It's all here. The cattle have proved their superiority. They show the way to a profitable future for each of us. The scores of buyers from previous years will tell you that, regardless of the price at the time, their cattle from this sale proved to be bargain investments. This will be your last time for a year or two to buy these Polled Shorthorns in quantity. These men are not so foolish as to sell themselves out of business. Next year, nearly all the good females go back into the four herds as replacements. It will mean a greater future for them and for the breed. But the supply available for public sale in 1971 will be most limited.

June 13, 1970, is your day for real achievement . . . the kind on which futures are built.

HARRIS SIMONS
The Shorthorn World

You'll see many winter pictures of the Thomas Farms' cow herd in this catalog, but here's how they're maintained in the summer on the gently rolling prairie of Manitoba. Some of the greatest brood cows of the world are included in the herd.

GENERAL SALE INFORMATION

TIME: The sale will begin at 12 noon Saturday, June 13, 1970, at Thomas Farms near Hartney, Manitoba, Canada.

LOCATION: Thomas Farms is located seven miles southwest of Hartney, Manitoba. From Hartney take Highway 21 south four miles to Lauder Road (No. 345). Then travel west three miles. Thomas Farms is on the south side of the road.

TRANSPORTATION: The farm is 50 miles from Brandon, Man., which is easily reached by both air and rail. See complete details on page 8.

HOTEL ACCOMMODATIONS: Sale headquarters will be the North Hill Motel, Brandon, Man. Reservations may be made direct or to Harris Simons, sale manager, or to Bob Gordon, Kinnaber Stock Farm, Souris, Man. A large block of rooms has been reserved at the North Hill. After they have been filled, reservations will be made for you at other nearby motels. See page 8 for complete information.

AUCTIONEERS: Jock Blacklock, Saskatoon, Sask., and Paul Good, Van Wert, Ohio.

GUARANTEE: All cattle will be sold under the standard guarantee endorsed by the American Shorthorn Ass'n. The consignors further guarantee every animal to meet the complete satisfaction of the new owner provided proper care is given. Because of the distances involved, we strongly recommend that all heifers sold with breeding privilege remain at their home farms until they are examined safe in calf before being shipped.

HEALTH: All cattle selling will comply with the health regulations of the Province of Manitoba. The herds are all in a tuberculosis and brucellosis free area. The most stringent herd health standards are maintained and all cattle will be available for export about five days following the sale.

TERMS: The terms of the sale are cash. Cheques should be handed to the clerks immediately following the auction. Please be sure to have the clerks record your transfer instructions and shipping information at the time of purchase.

EXCHANGE: The bidding will be conducted in Canadian funds. The prevailing exchange rate will be allowed, which is generally about seven per cent. In other words, the U.S. dollar in Canada is worth about \$1.07 due to exchange differential.

LIABILITY: The consignors to this sale, and their employees, accept no liability for accidents that may occur. Mishaps at cattle sales are very rare, but all attending must do so at their own risk. The sale manager and his staff, the auctioneers, ringmen and clerks were employed by the owners for specific promotional and clerical tasks and have no connection with the handling of the cattle, the condition of the premises, fulfillment of guarantees or status of health papers. The sale of each animal constitutes a contract between the buyer and the seller of each lot, but the sale manager cannot be responsible for the fulfillment of that contract. Where footnotes appear in the catalogue, they were written by the owners or employees of the herds selling, or from information provided by them.

LUNCH: Lunch will be provided on sale day by the women of the Lauder Church. They will also provide coffee and light refreshments the day before the sale.

BARBECUE DINNER: Barbecue dinner will be prepared by Jim Moffat and served to all our guests at the Souris Golf & Country Club, 1 mile South on Highway 22 and 1 mile East of Souris, the night before the sale. The reception will be from 6 to 7 p.m. with the barbecue from 7 to 9 p.m.

FURTHER INFORMATION: The owners of any of the farms selling, or the sale manager, will be happy to give you their critical appraisal of any of the cattle selling. A supplemental sheet will be provided on sale day listing breeding dates and other vital information. All announcements from the auction block supersede any other information, either written or oral.

MAIL BIDS: We hope it will be possible for you to be at the sale. If not, mail or telephone bids may be directed to any of the following:

E. H. Stoltz, Canadian Shorthorn Ass'n, Gummer Building, Guelph, Ontario, Canada. Tel: (519) 822-6841.

Harris Simons, The Shorthorn World, 16 S. Locust St., Aurora, Ill., 60506. Tel: (312) 896-8511.

C. D. Swaffar, American Shorthorn Ass'n, 8288 Hascall St., Omaha, Neb. Tel: (402) 393-7200.

Dwayne Dietz, Western Livestock Journal, 236 High Street, Apt. 1, Nampa, Idaho. Tel: (208) 467-1667.

Gene McDonald, The Shorthorn World, 16 S. Locust St., Aurora, Ill. Tel: (312) 896-8511.

Bill Hieft, Montana Farmer-Stockman, Great Falls, Mont. Tel: (406) 453-7696.

Lyle Eifen, The Prairie Farmer, Ladd, Ill. Tel: (815) 894-2297.

C. K. Tomson, Harding & Harding Livestock Insurance, Geneva, Ill. Tel: (312) 232-2100.

Wif Davis, Manitoba Beef Cattle Fieldman, Dauphin, Man. Tel: (204) 638-3739.

Larry North, The Shorthorn World, 16 S. Locust St., Aurora, Ill. Tel: (312) 896-8511.

Larry Henry, The Shorthorn World, 16 S. Locust St., Aurora, Illinois. Tel: (312) 896-8511.

TELEPHONES: On sale day call Ross Thomas, 341-2, Hartney, Man. Other telephone numbers are Bob Gordon, 813-2, Souris, Man.; John Draper, (204) 769-2361, Elgin, Man.

INSURANCE: Insurance will be available from the clerks and we strongly recommend that you insure your purchases for full value until they are delivered.

DELIVERY: Free delivery will be made to individuals who purchase either \$5,000 or five head in the sale. Group shipments will be made free of 10 head or more to central points within 1,000 miles of the sale. The four herds selling all have trucks moving at various times throughout the continent and each will be happy to cooperate in arranging the most economical possible group shipment. Many of the cattle will be retained for breeding or shows. Arrangements for their delivery may be made with the owners following the sale. A condition of the delivery offer is that the owners accept no liability for the safety of the cattle, and they strongly urge that you insure your purchases. Written instructions giving driving directions from the nearest major highways must be left with the clerks on sale day.

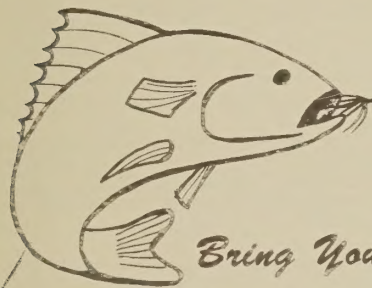

PEDIGREES: The new owners will receive pedigrees properly transferred in the Canadian Shorthorn Herd Book. Further transfer to herd books of other countries is at the expense of the new owners. In the case of Americans, when they receive the Canadian pedigree, it should be mailed to the American Shorthorn Ass'n with a request that an American pedigree be issued. The charge is \$10 a head if the work is completed within six months of the date of sale.

HARRIS SIMONS, Sale Manager

16 S. Locust St., Aurora, Ill. 60506

Tel: (312) 896-8511

It's Western Barbecue Time!

Bring Your Fishing Pole

Some of the world's best fishing is to be found in the hundreds of lakes north of the sale. Come early and make a vacation trip of it. The famed fishing grounds of Riding Mountain National Park are only 70 miles north of Brandon, Man., and the Flin Flon fishing resort is about 250 miles north. Many other well-stocked lakes are nearby.

The sale is located 60 miles north of the beautiful Peace Gardens on the Canadian-United States border. You will want to stop there for at least an afternoon.

Western Canada has long been known for its unique barbecues and we're planning a big one for all our guests. Jim Moffat, who is well-known to Shorthorn and Polled Shorthorn breeders, will be in charge. The reception will be from 6 to 7 p.m., Friday, June 12, at the Souris Golf & Country Club, 1 mile South on Highway 22 and 1 mile East of Souris. Barbecue dinner will follow from 7 to 9 p.m. In mid-June it doesn't get dark in Western Canada until about 10 p.m., so you'll have plenty of time to spend with your friends from throughout the country.

AIR TRAVEL TO THE SALE

There is good air service into both Minot, N. D., and Winnipeg, Man. While Hartney is a little closer to Winnipeg than to Minot, those traveling from the west might find it more convenient to fly into Minot. We will be glad to meet you in either town if you give us advance notice.

Airline schedules between Winnipeg and Brandon are shown below for your convenience . . .

| From Winnipeg | | To Brandon | |
|---------------|------------|-------------|-----------------------|
| MW 205 | 8:00 a.m. | 8:45 a.m. | Monday through Friday |
| TZ 215 | 3:30 p.m. | 4:10 p.m. | Daily except Saturday |
| MW 204 | 5:30 p.m. | 6:15 p.m. | Monday through Friday |
| From Brandon | | To Winnipeg | |
| MW 205 | 9:10 a.m. | 9:55 a.m. | Monday through Friday |
| TZ 212 | 10:50 a.m. | 11:30 a.m. | Monday through Friday |
| MW 204 | 6:45 p.m. | 7:30 p.m. | Monday through Friday |
| TZ 2316 | 10:40 p.m. | 11:20 p.m. | Friday only |

Please note that there is no air service from Brandon to Winnipeg for those who must make late Saturday night or early Sunday morning flights. Rental cars are also available for those who prefer. Those staying overnight in Winnipeg will enjoy the big, new International Inn adjacent to the airport.

MANITOBA'S CENTENNIAL YEAR

Remember, 1970 marks the 100th anniversary of the Province of Manitoba. Many special events have been planned throughout the province and you'll find convenient tourist information booths in the major cities and at all ports of entry. You'll want to plan a vacation trip to include several of these special activities.

DELIVERY OFFER

Free delivery will be made to individuals who purchase either \$5,000 worth or five head in the sale. Group shipments will be made free of 10 head or more to central points within 1,000 miles of the sale. The four herds selling all have trucks moving at various times throughout the continent and each will be happy to cooperate in arranging the most economical possible group shipments. Many of the cattle will be retained for breeding or shows. Arrangements for their delivery may be made with the owners following the sale. A condition of the delivery offer is that the owners accept no liability for the safety of the cattle, and they strongly urge that you insure your purchases. Written instructions giving driving directions from the nearest major highway must be left with the clerks on sale day.

THE LEADERS SELL THEIR BEST!

THEY COME FROM THROUGHOUT THE CONTINENT

THE LEADERS OUT-PERFORM THEM ALL!

STANFORD, MONT., 1970

Thomas Farms Polled Shorthorns topped all English breeds on test!

STANFORD, MONT., 1969

A Thomas bull out-performed all bulls of all breeds. The 19 bulls on test from the sale consignors made record gains equalling the tops of all British breeds. A Gordon bull topped all breeds in the sale at \$7,250 for one-half.

STANFORD, MONT., 1968

The bulls from Thomas Farms outgained ALL British breeds in more than 400 bulls. They sold at an average of \$1,320 to primarily commercial herds.

DOUGLAS, MAN., 1970

Thomas Farms again out-performed all other bulls on test.

DOUGLAS, MAN., previously

Bulls from these herds consistently topped the sale records and/or performance records of all bulls on test in 1966, 1967, 1968.

IOWA BEEF IMPROVEMENT, 1970

Bulls sired by bulls from these herds are again at the top of all breed performance records.

NATIONAL SHORTHORN RESEARCH CENTER, 1970

Two bulls from Kinnaber were third and fourth top-selling bulls of the 81 bulls entered.

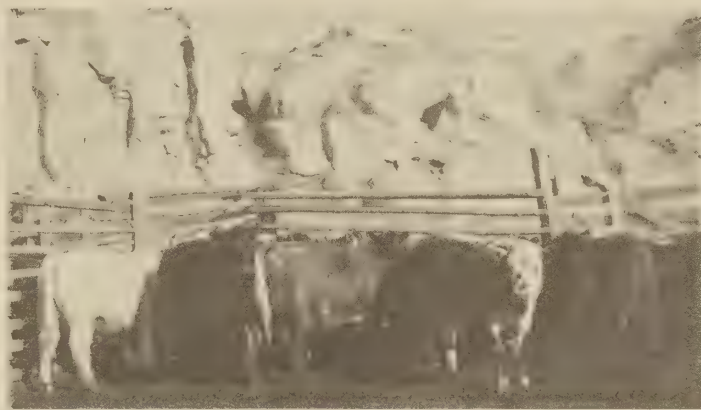

We could go on and on in detail. Wherever bulls from these consignors have been entered, they consistently have out-performed and out-sold all bulls of all other breeds. All four herds represented are and have been on official government home test. Complete test data will be available on all the bulls selling June 13 and, in many cases, on their sires, dams, half-brothers and half-sisters.

LEADERS IN THE HEART OF RANCH COUNTRY

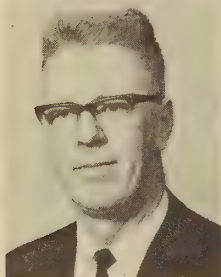

Pictured here are commercial cattle by TPS Coronet Leader 21st x owned by Gerald Gibbs, Jordan, Mont. He says "The Leader calves are much the heaviest of our calves. Have had a lot of inquiry for his heifers. The bull is all good as far as I'm concerned."

Gibbs is just one of the many ranchers making money with Leader bulls. I. H. Halvorson, Peerless, Mont., is using eight bulls from all four herds consigning to this sale. Don Stout, Kremlin, Okla., has 35 commercial heifers from the Halvorson herd. Just ask him what he thinks.

And don't forget John Scott of Montana, who has used Leader 21st on more than 20,000 cows!

WELCOME TO OUR FOURTH ANNUAL PRODUCTION SALE AT THOMAS FARMS

ROSS THOMAS

**MRS. ROSS
THOMAS**

It is always a pleasure to welcome Shorthorn enthusiasts and never was the enthusiasm more gratifying than now when Shorthorns are re-winning their rightful place in the commercial trade.

In this last year cattle from the herds represented in this sale have been accepted by the most astute breeders in every phase of this cattle business. These Polled Shorthorns have competed across the continent, winning the respect of their competitors and admiration for the breed.

While you are at our sale, we especially invite you to inspect our cow herd. It is the direct result of 12 years of performance selection, and we highly

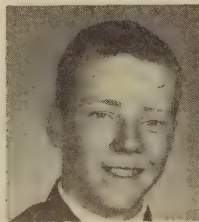

MR. AND MRS. CHRIS THOMAS

recommend this programmed method of herd selection.

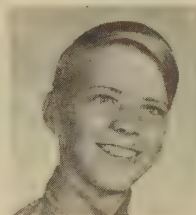

We know that we have been most fortunate in the wonderful friendships which have resulted from our association with Shorthorn breeders, and we are especially pleased to be associated with the wonderful people who are our partners in this sale.

We look forward to welcoming you to our fourth annual sale.

KINNABER LEADER 6th x was the talk of the 1969 sale where he was on display. Since then he has been used heavily in the herd and you can evaluate about 120 of his calves on sale weekend. To our knowledge he has never sired a horned calf!

He's perhaps the best son of T P S Coronet Leader 21st x, and the record of his half-brothers throughout the country is unparalleled. His dam, Butte Lee Fairy 7th x is a beautifully big cow. Her daughter by Clipper King of U.S.A. x in the Val Kjernisted herd, might be U.S.A.'s best anywhere. She also produced a full brother to the 6th x, Kinnaber Leader 9th x, that is in service at Kinnaber. See their section of the catalog for pictures of him and of his calves.

Leader 6th x was originally used in the Alf Dreger herd where he sired the champions and tops of the 1969 and 1970 Regina bull sales. That story is told in detail on the next page. Thomas Farms made arrangements to buy Leader 6th x from Dreger at the 1968 Thomas Farms sale. We believe him to be the longest and deepest of the sons of TPS Coronet Leader 21st x to have been developed to date . . . and there have been many great ones. He is a 100 per cent dehorner, has no scurs, has wonderful feet and bone, back and head. He has the most gentle disposition. He is a pleasure to work with, yet out with the cows he is all business, very active and sure. He is a great producer of strong semen and we have a large amount on storage.

Leader 6th x will play a dominant role in the Thomas herd for years. We hope that the owner of the one-third interest will promote and develop his calves as we have every intention of doing.

LOT 1

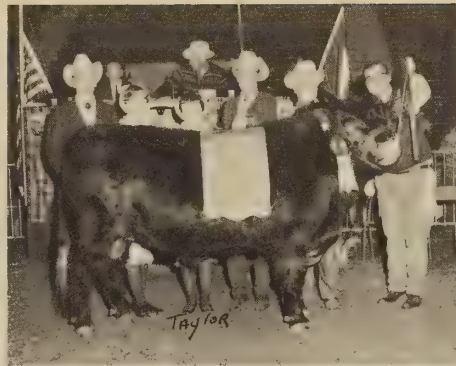

KINNABER LEADER 6th x

100% Dehorner

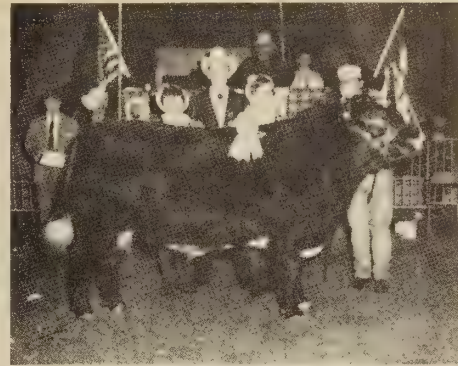

With considerable reluctance, but with understandable great pride, Thomas Farms has agreed to the many requests of breeders to sell an interest in their chief stock bull, KINNABER LEADER 6th x. One-third interest will be offered. Thomas Farms reserves the right to draw semen at their expense at any future time. If the bid price exceeds \$10,000, Thomas Farms will give possession to the new owner. At the conclusion of the bidding, if the bid price does not meet \$10,000, the winning bidder will be given the opportunity to offer \$10,000 to gain possession of the bull.

PHEASANT CREEK LEADER 3rd x by Kinnaber Leader 6th x was champion and top of the 1969 Regina bull sale at \$3,900 to Remitall Cattle Co., Olds, Alta.

PHEASANT CREEK LEADER 4th x by Kinnaber Leader 6th x was champion and \$5,200 top of the 1970 Regina bull sale where he also sold to the Remitall Cattle Co.

PHEASANT CREEK LEADER 5th x by Kinnaber Leader 6th x was reserve junior champion and \$2,500 top of the 1970 Regina Bull Sale to Howard Scott, Bridgen, Ont.

The Regina Champion Sons of Kinnaber Leader 6th x.

The record of the sons of Kinnaber Leader 6th x at the big Regina, Sask., Bull Sale is truly remarkable.

In 1969 he sired the grand champion bull, both top-selling bulls and the best group of three.

In 1970 he sired the senior and grand champion bull; reserve junior champion bull; best three by one sire; best pair and both top-selling bulls.

Moreover, they went to some of the breed's most astute cattlemen.

Quite a record for a young sire isn't it? It will be expanded by Thomas Farms and by the far-sighted breeder who buys Leader 6th x on June 13.

PHEASANT CREEK LEADER sold at the \$3,100 second top of the 1969 Regina Bull Sale to John F. Shuman and Sons, Byers, Colo.

BUTTE LEE LEADER 60th x

BUTTE LEE LEADER 60th x, right — Here is one of the truly growthiest sons of TPS Coronet Leader 21st x and certainly one of the bigger bulls ever used at Thomas Farms. If it's added size you're after, he should certainly provide it. His dam is from Edgar Philpott's reliable Rosie family and she is one of the highest performance indexing cows he owns. Several females carry his service and his breeding privilege is available.

KODIAK 3rd x

KODIAK 3rd x, left — we are proud to have a battery of six of the biggest bulls in the country, and Kodiak 3rd x is one of the junior herd sires. He approached a ton by the time he was two years old. He is service sire of several of the females selling. You can inspect many of his calves sale day. A son and two daughters sell. Kodiak 3rd x is by TPS Coronet Leader 4th x by Coronet Max Leader 3rd x, a bull that went to Bapton in Scotland and was the foundation sire of their polled herd there, and later exported to New Zealand, where he was acclaimed an all-time herd improver.

Most important, at weaning last year, the calves by Kodiak 3rd x weighed 18 pounds more on the average than those by any other bull in service at Thomas Farms. (This of course does not include Kinnaber Leader 6th x whose first calves arrived at the farm after that.)

CORONET MAX LEADER x

CORONET MAX LEADER x — This 100% dehorning son of Priam Royal Leader x, was originally chosen by Thieman's for herd use because of "his great head, balanced body and tremendous bone." The choice of Coronet Max Leader x has been verified by the impact his offspring have made as improvers of the Shorthorn breed, not only in his time but also especially now, when growthier, fast-gaining cattle are demanded. These cattle carrying the Leader name, are winning in the showring, are winning in the Performance stations, and more important, they are winning the respect of the commercial producer for this Shorthorn breed. Coronet Max Leader x had a ribeye (13th rib) measurement of 17.35 square inches, fat covering .50 inch and a weight at six years of 2,450 pounds. Harold Thieman was one of the first to be interested in this type of data, and Coronet Max Leader x proved himself a bull years ahead of his time.

BUTTE LEE LEADER 45th x

TOP SIRE

Along with Kinnaber Leader 6th x, he is one of the main sires at Thomas Farms. This son of TPS Coronet Leader 21st x is from the same Edgar Philpott family as the many-times-champion Butte Lee Pansy 2nd x that was grand champion of the 1968 Northern International at Billings and is now owned by Howard Gibbs, Morton, Sask.

Leader 45th x is already a proved sire. His sons at the 1970 Douglas Man., test station were the top-gaining group and included the top individual that weighed 1,115 pounds at 12 months. The entire group averaged 1,070 pounds with an average index of 110.

You'll like Leader 45th x and his service is available with the Thomas Farms female draft.

Thomas Farms females seldom see the inside of a barn on even the coldest nights. Their shelter is in the natural bush west of the home farm. All of these cows have a place in the herd won only by top performance and strong individuality.

The Importance of Records at Thomas Farms

Here at THOMAS FARMS, we are geared toward producing the cattle that we believe our customers are asking for. The number one challenge is to produce bulls that will continue growing to the extent of our customers' expectations.

We are more concerned that all our customers should get strong, useful cattle than we are in selling the odd, high-priced animal. Specifically we are trying to weed out the quitters.

This has meant that we have had to keep track of each cow's production or, in more modern terms, performance testing records. It's a time-consuming job, but we have been consistently keeping these records and selecting accordingly since 1957. We are beginning to get results, one of which is that our bulls have been performing right at the top of every test station we have ever entered. While this consistency is the result of continual selection, we also believe that if we are to eliminate the quitters, we must carry this performance weighing at least one step farther, and weigh all available progeny again at eighteen months. Ideally, we would like to weigh again at 24 months, but by this time our heifers are busy calving.

An indirect result of selecting by the records has been that our herd has become recognized for its uniformity. An animal not only requires a good growth factor to rate high by the scales,

but it also requires good body conformation, carrying lots of red meat to weigh well. Only cows with a good degree of femininity consistently meet the requirements of the good producer. Automatically, the old fashioned show types, which looked more like a steer than a mother, were discarded. This has also resulted in much improved udders throughout the cow herd, for poor milkers are culled, and poor teats or pendulous udders have a habit of causing troubles which show up through a calf that had its problems and just couldn't weigh up. It has been interesting also to note that the occasional heifer that has weaned at a much heavier weight than her contemporaries, sometimes produces calves that do not index nearly as high within the herd as she did at weaning. We believe this is the result of fat deposited in the udder even at that early age. The third generation will probably perform just as well as the grandmother.

Yes, keeping records may be time consuming, but it is very interesting and rewarding. Cow families generally follow a pattern, and it is most important to find which are doing best at weaning, which at 12 months, and which at 18 months. While I feel that the last weigh is the most important, when we find an animal which performs well at every weighing, then that animal has a certain future here at Thomas Farms.

THOMAS LEADER 6A x — We must stress the uniformity of the young cattle we are offering in this sale. It is a direct result of the depth and continuity of the breeding program we have been following. Every animal in this pedigree is polled. The sire, Butte Lee Leader 45th x, is a 100% dehorner. With built-in quality and growth factor, this young bull will be a real boost to any herd with a goal that includes dehorning.

Butte Lee Pansy 2nd x was grand champion of the 1968 Northern International at Billings. Earlier she was champion at Regina, Winnipeg and Saskatoon. She is from the same Edgar Philpott family as Butte Lee Leader 45th x, the sire of Lot 2.

THOMAS LEADER 51A x — TPS Coronet Galaxy 3rd x left the size potential factor in most of his daughters as proved by this young bull's mother, Thomas Princess 96V, that also sells. This is one of our better bulls this year.

Thomas Max 31V x is the biggest of the Thomas herd sires and is their choice of the sons of the 2,450 pound International grand champion TPS Max Coronet 92nd x. He is out of a 1,500-pound cow by Carona Perfect x and she has never dropped a horned calf. He has proved to be a 100% dehorner. Lot 6 is a son.

THOMAS MAX 47A x — He is one of our biggest calves to date of last year's crop. His sire, Thomas Max 31V x, dehorned every calf, and is a big, rugged bull from whom we have retained several good daughters. The dam of Thomas Leader 47A x is by the 100% dehorning Coronet Max Leader x, one of the greatest bulls of his day.

THOMAS MAX 76A x — Both of our sons of Thomas Max 31V x offered in this sale are bred very much alike. Every animal noted in our Canadian pedigree of both bulls is polled. At a time when the polling factor is so required, this difference between a 100% dehorning bull and one out of a horned cow, doubles the value of the bull, when the difference obtained from the calves is considered. The **only** horned calf we got from last year's crop of calves, was a calf bought in dam from another breeder. The fact that our herd is basically our own production, assures our customers of a uniformity that is hard to duplicate.

THOMAS KODIAK 143Z x, Lot 8.

THOMAS KODIAK 143Z x — He is a sound, good bull with good legs, excellent bone, a deep heel and well-balanced feet. He is very much like his sire at the same age. He carries Kodiak 3rd x's thick, mossy coat of hair. Perhaps most important of all, he is a deep-muscled bull, with depth of loin, and thickness of quarter. He's a bull we have been saving for use with our own heifers since we believe him to be about what we needed to cross with our Leader heifers. He will be 25 months on safe day and ready for immediate heavy use. Remember, his sire is a 100% dehorner.

THE BLUE RIBBON THOMAS FEMALES

Ask any Shorthorn or Polled Shorthorn breeder throughout the continent who has the best polled cow herds. Always among the tops, they'll mention Thomas Farms.

First, the Thomas foundation was carefully selected.

Second, they never fell into the trap of fancy little "quitters." Their cattle have always been big and they breed them to get bigger with each generation.

Third, a poor bull has never been used at Thomas Farms and many are tried each year. Those that don't quite measure up don't stay very long.

Fourth, the cow herd has been selected by their performance. Only sound, regular producers of calves bigger than the average remain after two years.

Fifth, the management is superior in a country where nature allows only the most rugged to survive.

Thomas Farms don't show cattle, although their customers do and get along very well. The Thomas story is in production for which no one has ever given blue ribbons . . . but perhaps someone should.

Think what just one female from this magnificent herd could do for you!

Thomas Leader 30th x is senior stock bull for Arch and Peg Allen, Livingston, Mont. He is out of Thomas Perfect Shirley 16S x, Lot 9.

THOMAS PERFECT SHIRLEY 16S x — This cow has to be rated as one of the most consistent producing cows in the business. Our Carona Perfect x cows have been our most consistent breeders over the years. They probably are our more popular cows as we listen to the comments of our visitors. If you are acquainted with herd indexing, just note this cow's herd index record.

Her 1964 son had a weaning index of 114 and a 365-day index in our herd of 105.

Her 1965 daughter's weaning index was 114 with a 365-day index of 113.

Her 1966 son had a weaning index of 96 and a 365-day index of 91.

Her 1967 son had a weaning index of 113 and a 365-day index of 112.

Her 1968 son had a weaning index of 113 and was an I.P.R. bull at Stanford, Mont.

Her 1969 son has not completed his test but is also a very good bull.

Each of her calves has been polled, and her 1967 son, Thomas Leader 30Y x, is heading the strong performance-proven herd of Arch and Peg Allen, Cruachan Polled Shorthorns, Livingston, Mont. She sells with red heifer calf at side born March 24 by Kinnaber Leader 6th x. She is only in the sale as a feature attraction of the greatest sale in the world.

THOMAS PERFECT FLORA 9T x, Lot 10.

THOMAS PERFECT FLORA 9T x — If you still have our 1969 catalogue, you will see that this is the dam of Lot 4, Thomas Leader 84Z x, that was purchased by Leo Stevens, Bellvue, Mich., and Dick Braman, Ashley, Mich. This is a large cow from a line of great females. Her dam weighed close to 1,600 pounds. Her dam was the largest cow we ever purchased. We are putting this cow in the sale, as a feature attraction, with a red heifer calf by Kinnaber Leader 6th x, born March 30. No doubt the calf will be worth the price of the cow . . . or more!

The Thomas Farms cow herd is justly famous. Look how well they maintain themselves under severe winter conditions when the temperature frequently falls to -40 degrees or lower.

TPS MAX CORONET 92nd x — As a special attraction we are offering 6 daughters of TPS Max Coronet 92nd x. These cows are in their prime at 6 years of age and are by the same sire as TPS Coronet Galaxy, that also produced several test station performance-winning sons. With calves at foot, these daughters of the 2,450-pound, International grand champion will provide a real sale opportunity. Note that TPS Coronet Galaxy sired the highest scoring AAA sire in America, TPS Coronet Unlimited x, a 2,100-pound bull that in turn sired the 1967 International grand champion female and the winning get-of-sire at that same show. TPS Coronet Galaxy had a rib eye (13th rib) of 16.75 square inches; fat covering .49 inches, and weight at four years of 2,120 pounds.

Thomas Leader 80Y x sold at the \$2,500 top of the 1969 Questing Hills Production Sale, Chandlerville, Ill. He is out of Thomas Max Rose 30V x, Lot 11.

From left are Thomas Galaxy Princess, retained; Thomas Perfect Shirley 16S x, Lot 9, and Thomas Max Rosemarie 91V, Lot 16.

THOMAS MAX ROSE 30V — Thomas Max Rose 30V is the dam of Thomas Leader 80Y purchased from us by Questing Hills, Chandlerville, Ill., and sold in their 1969 sale for \$2,500. She is also the dam of Lot 2 in our 1969 sale that sold to Keith Ruhn, Cogswell, N. D. A good breeding cow, bred to Kodiak 3rd x on December 15.

THOMAS ANNETTE 77V x — Thomas Annette 77V x is out of the same cow, Thomas Annette 3rd, as Lot 11 in our 1969 sale, bought by Dr. Smith, Greenville, S. Car. Annette 3rd has produced eight above-average indexing calves in the last eight years. Annette 77V x has produced three polled calves in the last three years. She has a roan heifer calf by Kinnaber Leader 6th x, born March 16.

Thomas Leader 41V x was the top-gaining bull at Douglas, Man., in 1967, and later topped the Thomas sale to Cloyd and Virginia Welsh, Pasco, Wash. He is out of the same cow as Lot 14.

THE THOMAS GUARANTEE

Thomas Farms, like all the consignors, sells everything under the standard guarantee endorsed by the American Shorthorn Ass'n. For your protection and to save unnecessary shipping costs, please leave open heifers, sold with breeding privilege, at the farm until they are examined safe in calf. You can count on Thomas Farms to take the best possible care of them. Cows with calves at foot are, of course, already proved breeders and may be shipped immediately so that the cow can be served to your own bull.

Naturally, all Thomas Farms bulls are unconditionally guaranteed in every way to be breeders.

THOMAS MAX DUCHESS 15V x — Our Duchess family has been one of our most consistently good breeding families. Thomas Max Duchess 15V x is out of the same cow that produced our top-selling bull in our first production sale four years ago. Thomas Leader 41X x sold to Cloyd and Virginia Welsh, Pasco, Wash. This bull had been the top-gaining bull at the Manitoba Sire Indexing Station at Douglas, Man. She was bred March 15 to Kinnaber Leader 6th x.

TWO HILLDALE SUPREME

DAUGHTERS SELL

HILLDALE SUPREME x daughters have done a commendable job of herd development for us. The daughters offered in this sale are large, strong cows that have been producing good, growthy calves. Martin Nold, Gettysburg, S. Dak., purchased this sire from us and also verifies that Supreme has sired many good producing females for him.

Hilldale Supreme x was selected for us by J. W. "Bill" Bennett to follow Hilldale Jubilee x. When you see these two cows you will be impressed by their size. Both of these good cows carry the service of Kinnaber Leader 6th x and should have their calves at side by sale day.

You'll travel far to find better Polled Shorthorn females than
those at Thomas Farms. You can buy 20 of their mature cows,
most with calves at foot, on June 13.

From left are Thomas Jenny 101X x, Lot 28; Thomas Jane 95V, Lot 25; Thomas Princess 96V, Lot 26, and Thomas Perfect Shirley 16S x, Lot 9.

T P S CORONET GALAXY—Rib Eye (13th rib), 16.75 sq. in.; Fat covering, .49 inch; Weight at 5 years, 2,275 lbs.; sire of TPS Coronet Galaxy 3rd x.

Daughters of TPS Coronet Galaxy 3rd x have been consistent bulls which have been among our top gaining calves at the Montana Performance Testing Station at Stanford, and are again proving their ability in the Stanford station and the Douglas, Manitoba, stations this year.

Thomas Jane 95V, his daughter, is the dam of our 1969 top-gaining Shorthorn at Stanford last year, the strong young sire purchased by Arrowhead Farm. In our sale last year Hart Farm paid \$2,000 for Thomas Galaxy Ruby 34V x. This year our highest indexing female on home test is another Galaxy cow.

Galaxy 3rd x is a bull that we sold before we fully appreciated what is now the modern type. People told us he was too rangy, and we hadn't enough experience at that time to stand up to criticism and keep the bull.

THOMAS JANE 95V — Thomas Jane 95V had a good performance record herself, and her calves have also done well. We sold a son to W. O. Bidne, Barhead, Alta., in our 1968 sale. In 1969 her calf topped all British breeds at Stanford, Mont., and was purchased by Arrowhead Farm, Batesville, Ind. Last year she had a good bull calf in October which we are retaining. She sells bred on December 15 to Kodiak 3rd x.

THOMAS MAX 019V x, used at Thomas Farms for one season. He was the two-year-old in the show herd and was grand champion in five of six 1966 shows in horned competition. That he carries on the potency of his sire, the International grand champion TPS Max Coronet 92nd x, is shown by the fact that a son, Melvary Jubilee x, was reserve grand champion of the 1969 Regina Bull Sale in strong competition, consigned by Zepick Bros., Kipling, Sask., who purchased him in dam, and sold at \$775 to Fahlman Bros., Kronen, Sask. He is the sire of Thomas Jenny 101X x, Lot 28.

Here Are All The Heifer Footnotes!

This year, instead of writing long footnotes under each individual heifer, Thomas Farms will present only the pedigree and give this general explanation of our selection.

We have selected a uniform group of heifers out of the heart of our yearling heifers. They will give the buyer a fair opportunity of sampling our herd. The heifers this year will ALL be red with the exception of ONE white daughter of TPS Coronet Leader 49th x.

By selecting from the heart of the herd it has been possible to offer uniformity of size, type and color. At the same time we have selected from the offspring of four different sires, which once again makes these heifers a fair sampling of our herd. We think our customers will appreciate this approach in selection.

This year our Kodiak 3rd x calves had the highest weaning weight average. The sons of Leader 24X x have, at press time, the highest record, and the closest grouping in their weights, of all the Shorthorns at Stanford, Mont.

TPS Coronet Leader 49th x made this same record last year at Stanford. Further, some of our best two-year-old heifers are by Thomas Max 31V x. All in all, we have tried to put together the kind of a group that you might have had, had you been in our position.

These heifers, of course, sell guaranteed as breeders. If you wish us to keep them until they are safe in calf, we will happily do so. If you would prefer to have them home at once, arrangements can be made to breed them artificially, either to Kodiak 3rd x, or to Kinnaber Leader 6th x. We feel this offer may solve some problems in transportation.

All of these choice young heifers sell from Thomas Farms on June 13.

WELCOME TO ROTHBURY

On behalf of my wife Sandra, my brother Mac and his wife, Betty, my mother and father, I would like to cordially welcome you to the 1970 Centennial Sale.

It is again a real pleasure and challenge to join with the Thomases, Gordons and Duncans in a project that is planned to offer the greatest of beef cattle ever sold in one sale.

1968 and 1969 were great years for Rothbury. A lot of this success is credited to our herdsmen, Orrin McLennon, Niel Moffatt and Bob Chambers. They have done their jobs well.

The greatest part of being a Polled Shorthorn breeder is the wonderful people we meet all over America. We welcome you to our June 13 sale and look forward with sincere pleasure to meeting all of you once again.

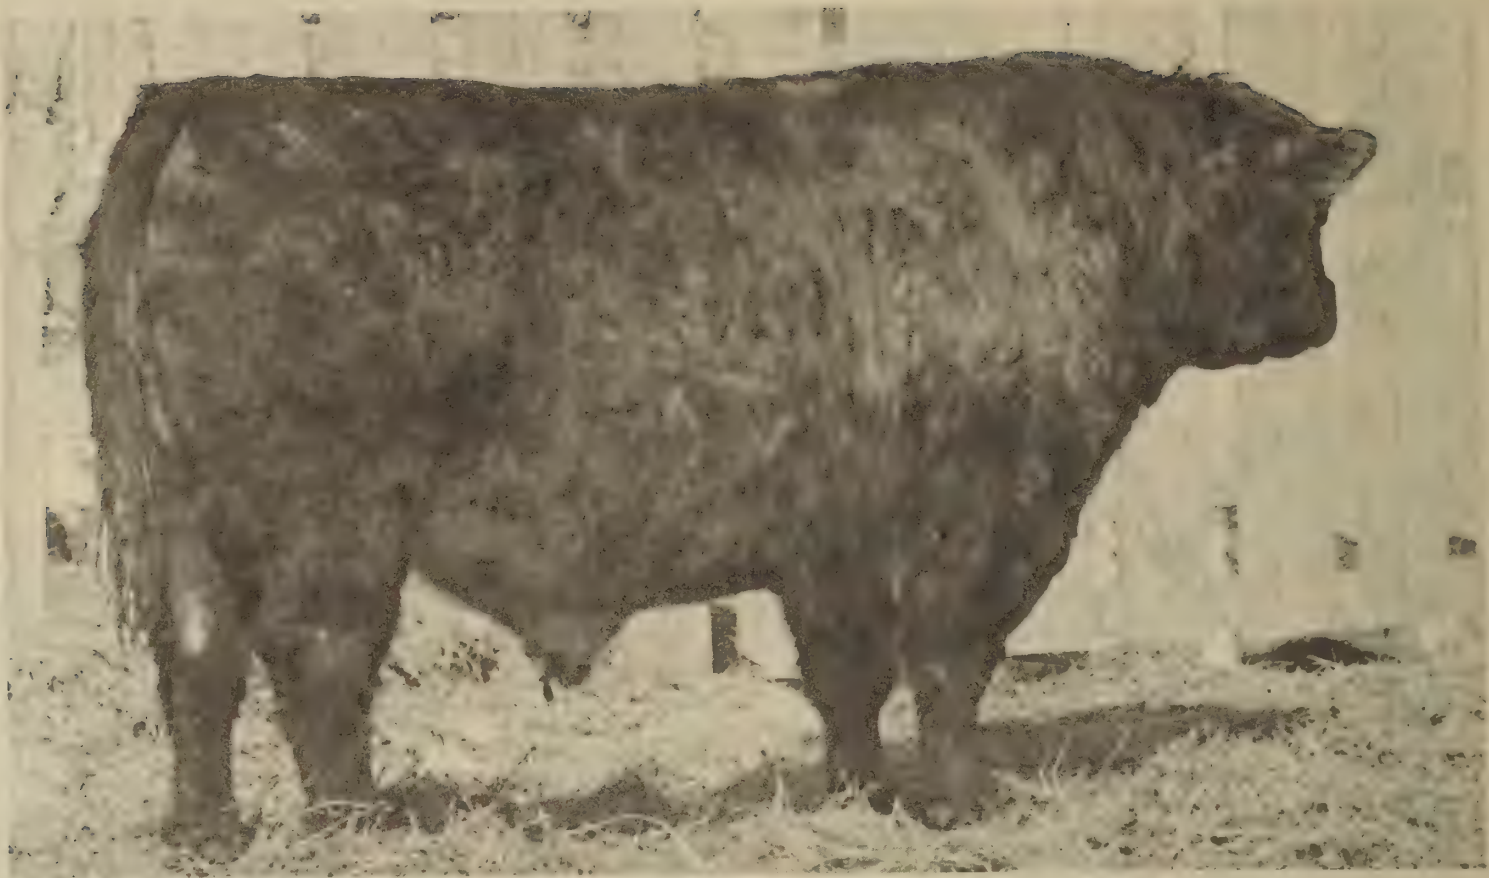

Cordially,
John Draper

Left — After the 1969 sale were, from left, Mrs. W. C. Pitfield, Montreal, Que.; Mrs. Mac Draper (Betty); Mrs. Bob Draper (Sis), and Mrs. John Draper (Sandra). They are admiring the polled heifer calf by TPS Coronet Keystone x that was at foot of a female Mrs. Pitfield purchased at \$3,100.

Right — Mr. and Mrs. Bob Draper, left, are with Buck Bardwell and Larry Hart, Waxahachie, Tex. The heifer is the \$2,000 Rothbury Miss Queen of Rotheres x.

MIGHTY MR MODERN x (Kinnaber Leader 5th x)

MIGHTY MR. MODERN x

As we have said before, the measure of a sire is consistency. No bull can be called great unless all of his offspring are of high calibre. As a sire, Mr. Modern will rank high with any sire of any breed today.

In last year's sale we sold a one-fourth semen interest in him to Magill Farms, Verona, and Harold Hofstrand, Leeds, N. D., at \$7,000. As far as we were concerned he was the best buy in the sale. His first 33 daughters, all open yearlings, have averaged over \$1,100. In the last two International bull sales his sons have been in the championship circle with his first son ever sold at auction selling at \$6,000 for a two-thirds interest to Mrs. W. C. Pitfield which is the record price for a polled bull at this sale.

Why is Mr. Modern this great individual and sire? Study his pedigree. All we will say about his sire is, "Thank God, he was born."

This is how Mighty Mr. Modern x looked in April 1970 at Rothbury.
Who could ask for greater size, character and muscling?

Left — Rothbury Dynamic Leader 27th x was reserve junior champion of the 1970 Canadian International where he sold for \$2,050 to Sunrise-Valley View Farms, Lindstrom, Minn. He is by Mighty Mr. Modern x.

Right — Rothbury Dynamic Leader 17th x was the first polled bull to be a champion at the Canadian International. He was the \$6,000 top of the 1969 sale to Mrs. W. C. Pitfield, Montreal.

Look At These Sons Of Mighty Mr. Modern x!

Left — Rothbury Dynamic Leader 26th x by Mighty Mr. Modern x was grand champion and top of the 1970 Brandon Spring Bull Sale to Paul Schrag & Son, Marion, S. D.

Right — Rothbury Dynamic Leader 23rd x by Mighty Mr. Modern was reserve champion and \$1,350 top of the 1969 Manitoba Polled Short-horn Sale to E. E. Romines, Houston, Mo.

All of these sons of Mighty Mr. Modern x sell on June 13. From left are Rothbury Dynamic Leader 39th x, Lot 43; Rothbury Dynamic Leader 34th x, Lot 44; Rothbury Dynamic Leader 38th x, Lot 42, and Rothbury Dynamic Leader 37th x, Lot 40.

Buy The Sons Of Mighty Mr. Modern x

THE MR. MODERN SONS

In 1968 the biggest percentage of Mr. Modern calves were heifers.

In 1969 this was reversed and the biggest percentage were bulls. And what a group they are!

We have been asked to price several of them but have refused. As we have said before, our intention is to offer our best June 13.

We have never had a group like them.

As one of the great livestock breeders once said, "Never select a good calf from a group of inferior brothers. His chances of siring calves that look like his brothers are too great."

In this group of Mr. Modern sons there are bulls that can carry this breed to greater heights in the 1970's. They can win at the strongest shows or can be used heavily as yearlings. Their sire was turned out with twenty-five females on his first birthday with no supplement and it certainly didn't stunt his growth.

These young bulls have been wintered outside with only a wind fence for protection. And, they have been fed a high roughage ration. We have absolutely refused to price any of these bulls. No matter what part of the world you live in, we hope you will make an effort to inspect them June 13. Then you can set the price.

ROTHBURY SIR LEADER x

ROTHBURY GOLD LEADER x — Our Future — In Rothbury Gold Leader x and Rothbury Sir Leader x lie our future. We have only shown Gold Leader x once, at the great National Western. He won the junior yearling class in quite raw condition, and is the All-American bull of the year. He was easily the biggest bull in the class. Gold Leader x is a truly bred big bull. There isn't a small animal in his pedigree. Bulls like Scotsdale Javelin only sold for \$800 in the sale of the Stars because he was reported as being too big and horsy. Blythwood Raylight sired the winning get-of-sire at the Royal Winter Fair in the days when cattle had to be big. When bred to above average feminine females, Gold Leader will breed true because there is no little grandmother or inferior animal behind him that his calves could resemble. Make sure you see Gold Leader's tremendous old mother at sale time. She is fourteen now and will have a full-sister or brother to Gold Leader nursing her by then. She is the mother of Rothbury Augusta B that was a champion at every major show in Canada in 1968 ending her show career at the Canadian National Exhibition when she was grand champion. Gold Leader will be shown extensively as a two-year-old this coming season. We think he will make a lot of friends for the breed. We feel we are safe in saying that Gold Leader x and Kinnaber Mr. Thieman! x at Kinnaber (which is a brother to Mr. Modern) are the two best white polled bulls in America today.

ROTHBURY DYNAMIC LEADER 33rd x, Lot 39.

ROTHBURY DYNAMIC LEADER 33rd x — Here is one of the best sons of Mighty Mr. Modern x we have ever offered. He is a full-brother to Rothbury Dynamic Leader 10th x that was the second top-selling bull at \$2,500 for a two-thirds interest to United & Eastern breeders in Ontario, at the historic 1969 Stanford test station sale. The 33rd x weighed 650 pounds at weaning and will mature to be one of the biggest bulls of the breed. His mother is one of our best cows and is sired by Oakcrest Victor x that weighed over 2,400 pounds. The 33rd x is deep in polled cattle for generations back and is almost certain to be a dehorner. He is a combination of the Leaders and of Bert Hanson polled cattle, probably the biggest two lines of cattle available today. When mature, Rothbury Dynamic Leader 33rd x will be one of the biggest bulls in America. He is bred to be that way.

Here's another view of the great young Rothbury Dynamic Leader 33rd x, Lot 39.

The magnificent Carig Maudette 3rd x is the dam of Mighty Mr. Modern x. She sold among the tops in the 1969 sale to Croy and Kjernisted, Stonewall, Man., where she has just dropped a polled full brother to Mr. Modern x.

Rothbury Clipper Jean 2nd x by Mighty Mr. Modern x sold in the 1969 sale at \$1,950 to Mrs. George Garvin Brown's Sutherland Farms, Prospect, Ky. The heifer became a prominent show winner and later won All-American honors.

ROTHBURY DYNAMIC LEADER 37th x — This young June calf has received many favorable comments from recent visitors. He weaned at 520 pounds and displays a lot of style and thickness with his extra size. To comment on his mother would be repetitious, she is another of those dependable Sid Coulthard cows. Rothbury Dynamic Leader 37th x could lift your herd to the top in the '70's.

ROTHBURY DYNAMIC LEADER 31st x — This big son of Mighty Mr. Modern x could fill your pastures full of big, modern polled calves in 1971. He weaned at 655 pounds. His mother is an excellent cow, see her at sale time. She is a maternal sister to Rothbury Dynamic Leader 36th x, the great white calf that sells in this sale. If your requirements are for a big bull from a dependable family that should be 100% dehorner, check this one.

ROTHBURY DYNAMIC LEADER 38th x, Lot 42.

ROTHBURY DYNAMIC LEADER 38th x — Just a mid-May calf, he weaned at 585 pounds. He has that extra length of leg and body so essential today in beef cattle. Make sure you see his mother at sale time, she is a tremendous cow, good milker, well above average in size. The 38th x will be tough to beat at the shows. With this parentage, he can't miss as a sire.

ROTHBURY DYNAMIC LEADER 39th x, Lot 43.

ROTHBURY DYNAMIC LEADER 39th x — The 39th x is a tremendous calf. Born in June, he weaned at 510 pounds. He has been a favorite with many of our recent visitors. He is a calf with that extra length of body and leg to let him be a big bull. He also displays a lot of style and will be tough to beat at the coming shows. His mother has no show record as she came from Sid Coulthard's dispersion along with nine sisters. Coulthard was never swayed by small show cattle and bred his cattle by the way they performed with a scale and not a show ring. To stay they had to pay at his place. The 39th will pay for you in the 70's.

ROHTBURY DYNAMIC LEADER 34th x — If it is consistency you want in your next herd bull, you had better take a close look at this calf. He weaned at 575 pounds. He is from our great producing Queen family. Our top yearling heifer in last year's sale at \$2,000 to Larry Hart of Texas was a Queen. Our two class-winning and reserve junior champion bulls at the record breaking 1970 Canadian International Bull Sale, were Queens. They sold at \$2,050 and \$2,250 to Sunrise Valley View Farm, Lindstrom, Minn., and Rejc Bros., Leask, Sask. The 34th's mother has a tremendous calf at foot now by Rothbury Sir Leader x. See them sale day. The 34th is one of Mighty Mr. Modern x's best sons. Coming from this great family, he can't help but make his new owner mighty happy.

ROTHBURY DYNAMIC LEADER 36th x — The 36th is another example of why we changed his sire's name, Kinnaber Leader 5th x, to Mighty Mr. Modern x. This great white calf is as modern as they come (might even have an extra rib). A full-brother to the 36th was sold to Halverson Ranches, Peerless, Mont., where a tremendous crossbreeding program is being carried out. They want only the best bulls and are willing to pay a good price for them. The 36th's mother is gone now, she was sired by Walnut Fasc Standard 44th x, one of the biggest bulls ever in Ontario. With the Leader's and the Fascinator Standard x line, his growth rate is assured. And, he is almost certain to leave every calf polled.

ROTHBURY'S SALE FEMALES

When you inspect the large group of tremendous females selling June 13, you will see why we cannot have a sale next year. Anyone of these groups of cattle would make a tremendous offering. When you have four herds offering their extreme tops, however, it will have to be the offering of a lifetime.

We know that at least 15 of the Rothbury heifers would be at the top of our cow herd in two year's time.

Selling them is going to leave a gap in our plans for the future, but we have a large bank of semen stored by Mr. Modern and we have bulls like Rothbury Sir Leader x, Rothbury Gold Leader x, and TPS Coronet Keystone x to carry on with our cow herd, the strongest it has ever been. These heifers will be offered June 13. Next year the top females must go back into the herd.

Two of the good heifers selling from Rothbury are, from left, Rothbury Miss Poppy x, Lot 52, and Rothbury Mayflower x, Lot 57.

ROTHBURY MERRY MAIDEN 2nd x, Lot 50.

ROTHBURY MERRY MAIDEN 2nd x — Decisions are a big part of life and selling Rothbury Merry Maiden 2nd x was a tough one to make. We don't mind selling a top female when we have a sister or her mother left, but when Rothbury Merry Maiden 2nd x is sold, this will be the end of this line for us. Her mother, Linderry Merry Maiden 2nd, had eight bulls in a row and they were good ones. The last one was the top-selling bull at the 1969 Manitoba Polled sale at \$1,350 to E. E. Romines, Houston, Mo. He was a full-brother to Rothbury Merry Maiden 2nd x. She is a tremendous young female, one of the very best daughters of Mighty Mr. Modern x. If it weren't that every effort is being made to make this the greatest offering in history we would not part with her.

You find all the strength of loins and quarters you could ask in the Rothbury females. All of these sell.

ROTHBURY MISS QUEEN ROTHER 2nd x, Lot 51.

ROTHBURY MISS QUEEN ROTHES 2nd x — She is a full-sister to Rothbury Miss Queen Rothes that sold at \$2,000 in last year's sale to Larry Hart of Texas. Only a June calf, she shows the same great potential of her full-sister. To list what the Queen family has done would take far too much space. Rothbury won three bull classes at the record breaking 1970 International bull sale. Two of the bulls, that were among the top sellers, were out of Queen females. One of them went on to be reserve junior champion. He is almost a full-brother to Rothbury Miss Queen Rothes 2nd x as their mothers are full-sisters. This could be the most valuable female we have ever sold. Sells open with breeding privilege.

TPS CORONET KEYSTONE x — This powerful young Royal Winter Fair champion is really proving his worth as a sire. In the last twelve months he has sired champions at Chicago, Denver, Fort Worth, American Royal, Eastern National, Pennsylvania National, Ohio State Fair. At the recent Polled Congress in Kansas City both champion bull and female were Keystones. In this sale we are selling twelve of his daughters. There are tre-

mendous females in this group — females that can win at the strongest coming shows and make grand cows par excellence. Just think what breeding like this could do for you!! A new breeder could rise to the front immediately if he were able to buy all these sisters, then select one of the great Mr. Modern sons selling to head them.

T P S CORONET KEYSTONE

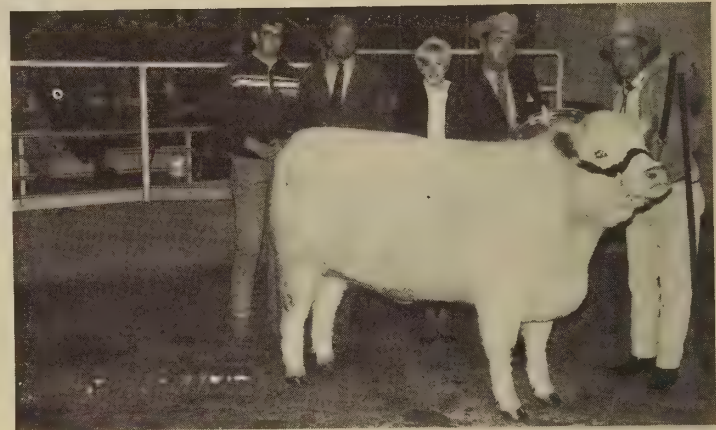

LOVELY CORONITA 11th x (above)

By TPS Coronet Keystone x she was shown by Acadia Farms, Northfield, Ohio, and was grand champion of the Ohio State Fair; reserve grand champion of the Ohio Futurity; calf champion of the Interstate Shorthorn Classic, Pennsylvania National, International, American Royal and Fort Worth; reserve calf champion of the National Western, Eastern National and Houston. All-American of course.

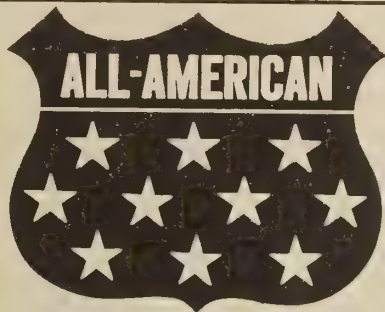

NONPAREIL CORONITA 36th x (right)

By TPS Coronet Keystone x, she was shown by Thieman's Polled Shorthorns, Concordia, Mo. She was reserve junior champion of the American Royal and went on to be grand champion of the record-breaking Polled Congress where she sold for \$1,750 to E. E. Romines, Houston, Mo.

CALVES WIN CONSISTENTLY!

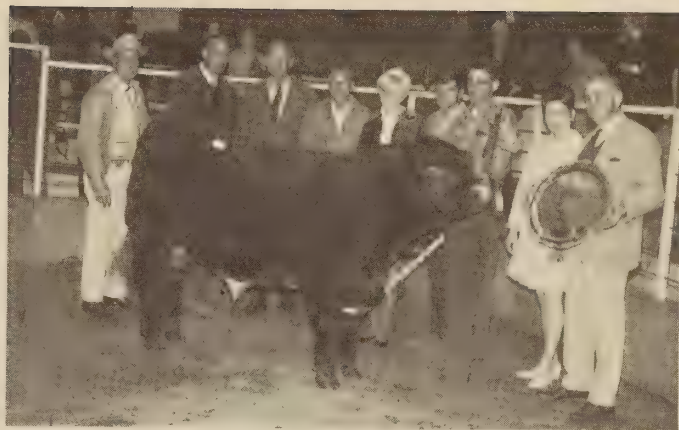

Ft. Worth, the American Royal, the Eastern National, the Pennsylvania National and the Ohio and Missouri State Fairs, among several others. Moreover, at the recent Polled Congress, which broke all previous records, Keystone-sired **both** the grand champion bull and the grand champion female. You can select from one son and 12 daughters of this great young bull on June 13.

JUNIOR GET-OF-SIRE

By TPS Coronet Keystone x

Nominated for All-American honors this year was the first junior get-of-sire to be exhibited by TPS Coronet Keystone x. Among others, it was first in class at the Missouri State Fair for Thieman's Polled Shorthorns.

TPS CORONET KEYSTONE 18th x (above)

By TPS Coronet Keystone x, he was grand champion of the 1970 Polled Shorthorn Congress where he sold at \$3,500 to Sneed and McGinnis, Anniston, Ala.

TPS CORONET KEYSTONE 21st x

By TPS Coronet Keystone x, he was nominated for All-American honors for Thieman's Polled Shorthorns, Concordia, Mo. He won his class at the American Royal and was second at the big National Shorthorn and Polled Shorthorn Show.

Rothbury Queen May
RUW, R. J. Draper & Sons

ROTHBURY QUEEN JOAN 3rd — What a breed this would be if every breeder had twenty females like Queen Joan 3rd in his pasture. She is a great one. Her grandmother was just the kind of cow every progressive breeder is looking for today, born too soon and not appreciated in her time. This tremendous dehorned Keystone daughter has the makeup and genetic potential behind her to be one of the great females of the 1970's and her calf will be polled as she can be mated to Mighty Mr. Modern x or Rothbury Sir Leader x. Under competent judging, we would like to own all the females that beat her in the coming shows.

ROTHBURY QUEEN JOAN 3rd, Lot 59.

From left are Rothbury Miss Urbane 2nd, Lot 60, and Rothbury Miss Emmeline 2nd x, Lot 69.

This was Rothbury's grand champion carload of bulls at the 1970 National Western in Denver. They sold primarily to commercial breeders in the West at substantial prices.

AT DENVER'S MIGHTY NATIONAL WESTERN ROTHBURY BULLS WIN IN THE YARDS

The second top-selling bull in the yards at the 1970 National Western was this one from Rothbury. He sold at \$2,000 to Jerry Arthur and Robert Collier, Fletcher, Okla.

If you have any doubt of the popularity of Rothbury bulls among the commercial cattlemen in the heart of ranch country, look at the record at the 1970 National Western. In a year when Short-horn demand was higher than ever, Rothbury again outsold them all.

Grand champion carload of bulls of the entire show was from Rothbury.

Second top of the private treaty sale was theirs at \$2,000 to Jerry Arthur and Robert Collier, Fletcher, Okla. Another sold at \$1,500 to Gil Abbott, Kiowa, Colo., for \$1,500. Nine bulls went to the Buenos Aires Cattle Co., Phoenix, Ariz., at \$700 each. One sold to Lawrence Ahlgren of Colorado at \$800.

With ranchers buying at these levels, aren't Rothbury bulls worth a premium to you?

Welcome To Candun Stock Farm

It is a pleasure for us again to be a part of this great sale and to be united with these forward-thinking, energetic co-consignors who are working so diligently to produce modern Shorthorns that can stand up to and surpass the competition from other breeds.

At Candun Stock Farm the emphasis is on performance first. The Leader cattle have compared favorably in this respect. Other lines which we are stressing, and you will notice them prominently in the pedigrees of our sale cattle, are Pleasant Dawn Seal x, Butte Lee Titan x, Carig White Cloud x and Hi-Way President x. All have been improvers of the breed.

Our group is in agreement when we recognize the Leaders

Candun Queen of Beauty 3Y x by TPS Coronet 20th x sold at \$2,800 in the 1969 sale from Candun to Rothbury. She later became the first female to be a champion at Toronto's Royal Winter Fair.

as the top line in the Shorthorn business, but we are constantly searching for new lines to intermingle.

Our senior herd sire, TPS Coronet Leader 20th x, is gone, but a semen bank will insure his further influence in the breed. A son was recently class winner at the International Bull Sale in Brandon and sold at well above the average of the sale. Perhaps his greatest accomplishment to date was to produce the first polled female champion ever at the Royal Winter Fair, Candun Queen of Beauty 16 x, that as a two-year-old heifer sold in our sale last year to Rothbury Farms. More than a little of the credit goes to John and Mac Draper for their skill in the showring. Leader 20th x has produced extra size and length in his offspring along with muscling and trimness.

Selling from Candun are, from left, Candun Victoria Louise 3A x, Lot 77; Candun Red Beauty x, Lot 74, and Candun Lee Crystal x, Lot 75.

Another sire which will be used more at Candun is Candun White Leader x by TPS Coronet Leader 21st x and from the same dam as Draper's heifer, Carig Queen of Beauty x, she being sired by Carig White Cloud x. At the Regina International Spotlight show last summer it was a close contest between the Wises' White Cloud breeding and the Gordons' Leader 21st x cattle. Here is a combination of both. White Leader x has produced calves with extra size, length and thickness.

Another bull that is being used again for extra length and growth is Thomas Leader 81Z x purchased in last year's sale. This bull is also being used in the herd of Harvey Fulton, Birtle, Man.

In our fourth year of performance testing we are constantly improving the standard in our cow herd, made up of a number of major families including several daughters of TPS Coronet Leader 20th x, ten daughters of TPS Coronet Leader 21st x, daughters of Butte Lee Titan x, Kinnaber Leader 9th x and a number of females from the Queen of Beauty family which have produced such outstanding individuals as Candun White Leader x, Candun Queen of Beauty 16Y x, Candun Leader 9th x (used at Hart Farms in Texas). Another Queen of Beauty heifer produced our top calf on performance last fall. Our Pleasant Dawn Seal x daughters have produced extreme growth in their first calves, weaning 630 and 700 pound calves as two-year-olds.

A new addition to our herd, Broadcurve Snowflake weaned a 730 pound calf last fall that went on to weigh 1,110 pounds at a year this spring.

Through the generosity of Edgar Philpott we were able to purchase two daughters of Butte Lee Titan x last summer. At present the bull calf from one of these cows is making Edgar's top gain at Saskatoon Test Station at 3.75 pounds a day. The other daughter is one of our top entries in this sale.

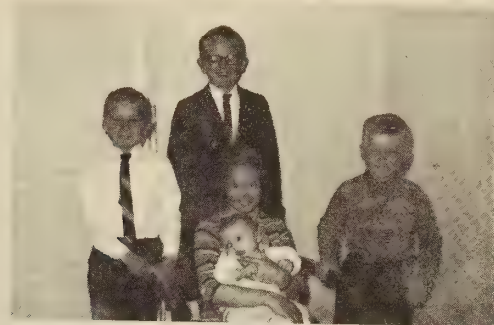

We welcome your visit to Candun Stock Farm to inspect our herd. Our Shorthorns here have competition for high gains from some top crossbred cows and calves from other breeds. They are standing up to the competition and we feel will be welcome additions to any herd for breeding stock.

My wife and family and myself hope to have you visit at sale time or anytime before or after.

Sincerely,

Bob

Bob Duncan

The Duncan children are, standing from left, Jimmy, Brent and Mark. Wendy is seated holding baby Cameron.

Rothbury Dynamic Leader x by TPS Coronet Leader 20th x (senior sire at Candun) won his class and sold for \$2,150 at the 1970 Canadian International Bull Sale.

This unretouched amateur snapshot shows TPS Coronet Leader 20th x in his working clothes at Candun Stock Farm, Ebor, Man. He is a seven-eighths brother to TPS Coronet Leader 21st x. The 20th x is gone now, but he will continue to be used in the herd artificially.

TPS CORONET LEADER 20th x, our senior herd sire is gone, but a semen bank will insure his further influence in the breed. A son was recently class winner at the International Bull Sale in Brandon and sold at well above the average of the sale. Perhaps his greatest accomplishment to date was to produce the first polled female champion ever at the Royal Winter Fair, Candun

Queen of Beauty 16 x, that as a two-year-old heifer sold in our sale last year to Rothbury Farms. Leader 20th x has produced extra size and length in his offspring along with muscling and trimness. Lot 74 is the only daughter we are selling and two others sell safe in calf to him.

Broadcurve Leader 2A x was an All-American for Packard Cattle Co., Elbert, Colo. The bull is by Candun White Leader x that is in service for Candun Stock Farm.

CANDUN WHITE LEADER x

In service at Candun is Candun White Leader x by the famed TPS Coronet Leader 21st x. Moreover, he is out of the dam of the \$2,800 Candun Queen of Beauty 3Y x, the first polled female ever to be a champion at Toronto's Royal Winter Fair. That cow in turn is out of Carig Queen of Beauty x by Carig White Cloud x. It was the Carig White Cloud x line that has been instrumental in the great success of the stock bulls developed by Boa Kae Ranches. Candun White Leader x also sired the All-American Broadcurve Leader 2A x for Packard Cattle Co. You can buy a daughter of Candun White Leader in the June 13 sale.

THOMAS LEADER 81Z x

THOMAS LEADER 81Z x — One of the highest weaning indexing calves Thomases weighed last fall. This bull has the same grandsire on his dam's side as their high-gaining bull at Stanford. A three-quarter brother was their top-gaining bull at Stanford, gaining 3.35 pounds a day on test. TPS Coronet Galaxy 3rd x was also the maternal grandsire of their top bull at Stanford last year. He is also being used by Harvey Fulton, Birtle, Manitoba.

CANDUN LEE CRYSTAL x, Lot 75.

CANDUN LEE CRYSTAL x — Of the ten TPS Coronet Leader 21st x daughters that were born here last year, this is the top heifer calf. Her dam, Butte Lee Roda 3rd is also one of the outstanding heifers being a full-sister to the top-selling bull in Regina in 1967. At the time we selected a 4-H heifer this spring, this heifer looked like the number-one choice but we had already decided on her for the sale. This is an attractive, sound female replacement, another granddaughter of Leader 21st x. Rosie's Beau x was purchased by Edgar Philpott because of his high weaning weight and easy fleshing ability. Open with breeding privilege.

CLIFTON BLOSSOM 6th x, Lot 76.

CLIFTON BLOSSOM 6th x — Here is a heifer reday to walk into the showing. She is very docile and would make an ideal heifer for a young 4-H member or could fill a gap in anyone's showstring for 1970. She was purchased in the Regina sale last fall where she stood second in class. We should be keeping her for a brood cow but have decided to offer her as another sale attraction. Open with breeding privilege.

BUTTE LEE PRIMROSE 4th x — This cow is offered as a sale attraction. We can offer her only because we have two half-sisters and a daughter in the herd. Butte Lee Titan x produced modern females which are consistent producers. Both the 1969 and 1970 Denver champions were produced by a Titan daughter. She will calve to TPS Coronet Leader 20th x by sale day.

KENMAR LILY 6U x — This is a big, strong daughter of Hi-Way President x used by Harvey Fulton for many years. His daughters have been some of the best producing females in the Polled Shorthorn field. Don Stout, Kremlin, Okla., purchased a President daughter from Harvey Fulton last fall which had one of the most outstanding bull calves at foot which I have seen. Kenmar Lily x has produced two real good sons for us. The first one sold to Montana and the second one at present is developing into a promising herd sire. She will calve in early summer.

This is the 1969 bull calf out of Kenmar Lily 6U x, Lot 80. He does not sell, but he's ample proof of what his dam can produce.

This picture was taken at Kinnaber when it was —20 degrees which proves that the Kinnaber brood cows can take it. The big red cow at the rear is Lady Emma x, dam of Kinnaber Emma Coronita x and Kinnaber Emma Coronita 2nd x, both sold to Acadia Farms, Northfield, Ohio.

Welcome To Kinnaber Stock Farm

Again it is a pleasure for all of us at Kinnaber to be a part of this important Shorthorn sale. Livestock breeding is not only a great challenge and a fascinating enterprise, but a rare opportunity for a wonderful way of life. We grew up in the livestock business starting through the fitting and showing of 4-H steers, proving the value of our own breeding cattle. Each of us and our families have a personal stake in this great venture which enriches our lives daily.

It is a pleasure to work and plan with such fine people as the Thomases, Drapers and Duncans. They have a never-ending desire to breed better Shorthorns. They take a broad look at the entire beef cattle industry and are willing to use all tools they feel will help to produce a better beef animal. They know that our breed, if constructively selected, has all the potential to be the dominant beef breed in North America. It has a long way to go to obtain that status but they know from their own successful experience that it does have the potential.

We at Kinnaber are proud of the tremendous acceptance of our cattle by the entire beef cattle industry. We have always liked big cattle but we have also demanded quality and utility value with it. We ask that they be the kind of cattle that always have a high commercial value. The trends of the times, which

do change, never sway us from these goals. Fanatical things with no utility value, that we all have seen, have been bred in the past and can have little value for anyone.

It has given us a great deal of satisfaction to see the strongest herds in America come to Kinnaber for stock bulls and replacement females. It has given us even greater satisfaction to see how well these cattle have performed in their new homes. It is most rewarding to see these bigger cattle, that we have always believed in, give so many herds such an enthusiastic lift in breeding better cattle and making their cattle a more profitable enterprise for them.

It has been most rewarding to see our cattle in the winning circles for so many people and to see the progeny of Leader 21st x sons providing such strong competition and selling for such rewarding prices for their owners. The list of achievements of Kinnaber cattle has begun to get so long we can't possibly mention them all. We pledge our future to breed the best cattle possible to add satisfaction to our customers and to our breed.

We believe that we can boast of the greatest stock bull battery in the world. There is the unparalleled TPS Coronet Leader 21st x; his great son, Kinnaber Mr. Thieman! x, acclaimed by leading cattlemen throughout North America as "the greatest young polled

stock bull of all time" — quite a statement, but honestly, have you ever seen his equal?

Then, there is Big Gene x (Kinnaber Leader 9th x), our 100% dehorner that is consistently leaving us tremendous calves.

Butte Lee Kinnaber Leader x is a tremendously promising young stock bull in which we recently sold a two-thirds interest to Cyrus Eaton's Acadia Farms, Northfield, Ohio. His great length, trimness and balance, along with his overall quality and beautiful dark roan coat backed up not only by his sire, Leader 21st x, but also he is from a big strong brood cow with 15 years of performance selection behind her that gives us a stock bull that will play an important part in the production of future modern Polled Shorthorns. Also, we have other Leader 21st x sons like Tiny Tim x (Butte Lee Leader 63rd x), George the Giant x (Kinnaber Leader 3rd x), Kinnaber Leader 22nd x and other leading sons in which we have an interest.

Further, FF Cornerstone 14th, recently purchased from Fiess Farms in Washington, is a half-brother to the 1969 International supreme champion and one of the best sons to date of WSU Cornerstone 4th (that we feel is easily the biggest-boned Shorthorn bull in America today).

Along with FF Cornerstone 14th, purchased jointly with Nold's Weston Shorthorns, we acquired a limited amount of semen from **WSU Cornerstone 4th**. This will provide Kinnaber with a new

line of the best Shorthorn cattle available to blend with our Leader line to produce Polled Shorthorns for the future. We plan to breed a few top horned Shorthorn bulls from some of our strong horned brood cows to provide Shorthorn bulls that we feel the horned Shorthorn industry will require for the future.

Frankly, we feel there are just not enough herds trying to breed horned Shorthorns for tomorrow's market and future.

Our breed will always have horned Shorthorns. Let's breed them to compete with other breeds. The majority of the industry requires polled cattle, but certain parts of our ranching industry requires horned cattle. If that animal can be a Shorthorn, let's be sure we have one of the right type.

We have also obtained an interest in a 2,250 pound 100% dehorning stock bull that is breeding tremendously well and is a complete outcross to our Leader cattle. His purchase will be announced sale day. With our Leaders, that continue to perform so well, and now with the Cornerstones our other new lines blended with our cow herd that we have so rigidly culled, we feel Kinnaber will be a continuing source of replacement stock you will want to consider in your future plans.

It has been a great year for Kinnaber and its customers at the shows. The competition has been tough, but we can't recall when any one herd has shown at so many leading shows and has won so consistently. We are proud our cattle could stand the

These young heifers from Kinnaber all sell June 13 in the greatest offering ever assembled.

Wayne and Eleanor Gordon with their three sons, from left, Brent, Barry and Brian.

test under so many different leading American cattle judges. Never at any show were we not in the championship circles and at many we won in both bull and female classes.

Many of our fine friends deserve credit in helping us in presenting our cattle, but we must single out Mark Tracy who was with our cattle at every one of these shows. Mark's enthusiastic interest in this great breed of cattle gives us added enthusiasm for its future. We know the future of the breed will be carried forcefully by young men like Mark. Mark will be with our cattle again this year at the leading Canadian shows, and he will enjoy visiting with you.

Also, at home working daily with the cattle and general farm operation is Red Piloquin whom many of you know. Also, thanks to our friend and neighbor, Lawrence Duecle, who helps with our cattle at many of the shows and has made many miles this last year or two delivering Kinnaber cattle. Lawrence has made a lot of friends in the Shorthorn industry.

We cannot overlook thanking customers like Acadia Farms, KC Farms, Chuck-O-Luck Farms, Packard Cattle Co., Hart Farm, the Taylors of Seven T's, Pa Do Farm, Dr. and Mrs. Glenn Miller, the Smalls, Dregers and the Drapers of Rothbury for the great job they have done in showing and promoting Kinnaber bred cattle. It is rewarding to us that these cattle were able to win so consistently in tough competition for these fine folks.

In the field of performance, Kinnaber has placed their cattle in competition at more testing stations in different areas than any other herd. This year our cattle were evaluated at the National Research Center in Kansas and at the Iowa Performance Station at Randall, Iowa.

We want to thank the many Universities and Experimental Stations that have evaluated and are evaluating our Leader cattle for gain and carcass data, so essential in modern day cattle evaluation. Also the many leading American ranchers who have so widely and consistently accepted our Leader cattle in their cross breeding programs.

We appreciate the tremendous support we have obtained from Edgar and Lily Philpott and the Martin Nolds whose Leader 21st x cattle we have developed, shown and sold. From these constructively-bred and sound cow herds we have been able to supply a continuing amount of well-bred, practically-developed cattle to you. Also thanks must go to the W. K. Legge family, the

Lindgrens, the Smalls and many of our other customers who have supplied us with cattle so we could offer you the very best.

We are the first to admit that Kinnaber breeding does not make them any better and that we must offer to you only the very best from a wide selection of good cattle.

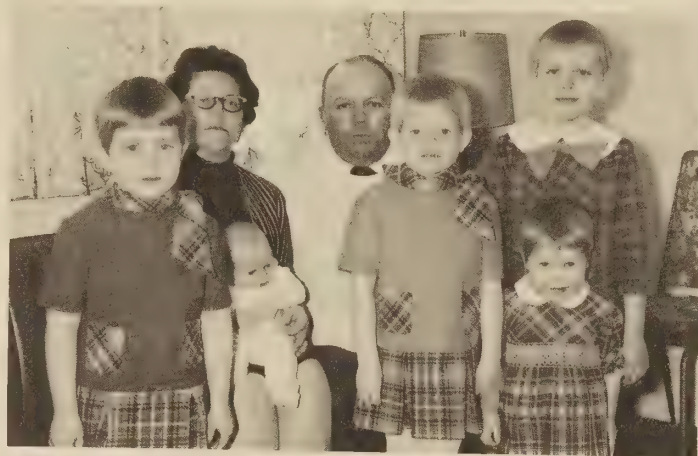

We have travelled extensively this year throughout North America and parts of Europe, as we feel it is a must to keep our breed in the fore and to watch and evaluate our competition. It is no secret that we at Kinnaber maintain a small herd of Hereford cattle and are interested in a crossbreeding Simmental program. We feel we must work closely with other breeds and projects to truly evaluate our Shorthorn program. We sincerely believe that our Shorthorn breed has never had a greater future and is without question the world's greatest crossing breed. Our Shorthorn-Simmental cross calves, on the whole, are our best cross. This point was also proven at the Lacombe Experimental Station, where Shorthorn crosses led all crosses at weaning. We feel there never was a greater future for the best in pureline Shorthorn cattle providing they are big and practically bred, to supply the demand that this breed can obtain in the future in crossbreeding programs. There will always be Shorthorns at Kinnaber and, with the good Lord willing, we intend to do all in our power to breed an animal

THE KINNABER GUARANTEE

Every animal in our consignment is honestly described and accurately illustrated. Our footnotes are a sincere appraisal of our evaluation of the animal given for your benefit in your selection. Each purchase you make must live up to everything we have promised for it and it must give you the service you have a right to expect.

Kinnaber is proud of the reputation it has achieved for standing behind its cattle.

You can be sure if, given proper care by you, the purchaser, they do not perform for you, Kinnaber will be the first to want to see them replaced with cattle that will perform. Our best friends must be our customers. We, in turn, expect sound management, good care and sincere honesty from you.

This is Bob and Joyce's clan. The baby is Robert Bruce. The girls, from left are Sheila, Shirley, Lois and Lynn (in front).

demanding by the beef cattle industry so that our Shorthorns once again are the dominant breed they so rightfully should be. North America can and should be the world source for Shorthorn seed stock.

We at Kinnaber are proud of our customers and have always endeavored to treat them the way we would like to be treated ourselves. We try to maintain our cattle and cow herd in a practical way, applying as much sound management as we possibly can.

The interest taken by and the continuing support of our wives, Eleanor and Joyce, and our entire families, along with the many fine folks that we have met and dealt with, make us sure that the good Lord has blessed us to be in the best and most enjoyable business in the world today, breeding Shorthorns.

Whether you are a buyer or a visitor, we hope that you will be with us on June 13. Come early, inspect our herd and the many other fine herds in this area.

Remember, the doors are always open at Kinnaber.
Bob and Wayne Gordon

T P S CORONET LEADER 21st x

The story of two far-sighted young cattlemen who were determined to breed big Polled Shorthorns that would be great.

... At the Saskatoon Spring Bull Sale in 1961, Bob and Wayne Gordon discussed for two or three hours whether they would take the big jump and buy a polled bull. At that time Highway Fantasy x, a 100% de-horner, was available from Frank Wilson, Pilot Mound, Man. They felt they could buy him. They needed a herd bull badly but felt they must have one with great size since the breed was losing size in their opinion.

They had a group of bulls and females at the sale that they knew were not big enough, although they were average of the breed size there that day. They were by a bull that they had won with at the sale two years before and had sold at \$2,500.

After a long discussion, the Gordons decided that they were not ready to go to Polled yet. They felt there was still a great opportunity in horned Shorthorns.

So, they inspected the sale bulls. Offered by Rhys Williams, veteran breeder from Saskatchewan, was one of the biggest bulls available. He weighed 1,680 pounds and was not two years old. The bull was out of a cow that had produced two AAA herd bulls prior to this bull. He was by the exceptionally big Killearn Cyril. Here was a bull that could produce bulls Kinnaber could sell to not only registered breeders but also to the ranch trade in Western Canada. He could compete with other breeds more than favorably.

Bob and Wayne took this bull home and used him at Kinnaber but they were not satisfied that they had reached their real goal. The polled potential still lurked in the background. There was a great opportunity in the Polled Shorthorn field to uplift Shorthorns, adding both quality and size. Not completely satisfied, they offered the Williams bull for sale and ended up trading him to a commercial man for Kelburn Snowball.

By this time they had definitely decided they would buy the best Polled Shorthorn bull available. Just having started farming on their own and having a heavy investment in a dairy operation, it would be disastrous to ask their banker to loan money for a registered stock bull. At that time cattle prices

TPS CORONET LEADER 21st x, AAA. Five-Star.

were depressed. Such a request would probably result in their banker's having a heart seizure! The future did not look as great to many people in the beef cattle industry, and in particular the purebred industry, as it has proven to be since.

The Gordons went to some private friends and presented their goal to them. They felt a great future lay in Polled Shorthorns of size and quality.

"They had to sell this story hard. At the time they had a living in the dairy. They also had a small herd of horned Shorthorns which could always be sold. Perhaps the purebred industry was not all that sound." That was public opinion.

Having a love for Shorthorns and having followed them ever since the Gordon boys could walk, they had a strong desire to do something in their lifetime in the Polled Shorthorn industry. Many good Polled Shorthorn herds were in the area. Moreover, they were selling their bulls with ease at a premium above horned cattle.

But, the Gordons needed money and Kinnaber Snowball was for sale.

Having heard and watched the Polled Shorthorn cattle throughout the United States and their success in the Bill Bennett,

The white TPS Coronet Leader 21st x, AAA, towers above some of the most massive brood cows in the business. This snapshot was taken shortly after his arrival at Kinnaber.

Thieman, Teegardin, Lynnwood and other herds, they always had a strong desire to go to the Polled Congress. In that year it was being held at Omaha, Neb. They wrote for a catalog after seeing the Shorthorn advertisement, and arranged to go with Walter Larson, veteran polled breeder from Carrington, N.D.

The Gordons were also selling a group of bulls in the Brandon Spring Bull Sale at that time. Their wives felt it was a terrible time to go to another bull sale. They should be selling their own bulls at home. It had been a dream, however, to go to the Polled Congress and to see the great cattle that were being offered. Nothing would stop Bob from attending.

Wallace Volker, a friend from Bottner, N. D., brought a chap up from South Dakota who wanted to buy several horned Shorthorn females. This particular man has since become one of the Gordons' very good friends and joint owner in many herd bulls. He was Martin Nold, Weston Shorthorns, Gettysburg, S. D.

Nold looked at their herd and other herds in the area. Bob Gordon was getting quite impatient. He had to leave that day for the Polled Congress. After much consideration, Nold decided to buy a group of horned females by Kelburn Snowball. He has since said that Kelburn Snowball was one of the best investments he ever made in the Shorthorn industry.

Kinnaber sold cattle at that time that they could well have kept at Kinnaber. But they were determined to go polled and they thought then that it was necessary to have an all polled herd. Today they look back and feel that their opinion was not necessarily right. The Gordons today certainly tell you they

could have used some of those good horned females with a bull like TPS Coronet Leader 21st x. Selling the cattle to Martin Nold brought \$5,500, which put them in good shape to go to the Polled Congress to purchase a bull . . . although there were certainly **many** other places at that time for this money. Not having any other money available, the Gordons had earlier borrowed \$1,200 at 20% interest from some friends who wanted to help, but felt it was a risky business to buy this Polled Shorthorn bull. Along with the money obtained from Martin Nold and with the \$1,200 in borrowed money, Bob took off for Carrington, N.D., to go with Walter Larson to the Polled Congress.

"Arriving in Omaha is a thrill I'll always remember. I remember entering the barn some two hundred yards ahead of Walter, being very anxious to see the cattle that were offered for sale. I took one walk around the barn and what did I see but one of the biggest and best Shorthorn bulls I had ever seen in my life. In fact, he was a bull of the type that I didn't think was available in the breed. He was the big, white TPS Coronet Leader 21st x.

"There were some other good bulls offered in that sale but my eye could not go any place but to Leader 21st x. Here was a bull that I felt that if he didn't have anything else, he had the size that we could boast with pride against the other breeds — our only competition. There were Hereford bulls in our area weighing near the ton at slightly past two years of age. Here was a Shorthorn bull weighing 2,190 pounds at 30 months. And he had quality, length, trimness and cleanness," says Bob.

Many of the Gordons' friends and many of the people we met at that sale told them that this bull was too extreme. He was too big and certainly not the type that we were looking for. Being determined to go to this type of cattle, however, nothing would sway them. They say they did not indicate to anybody that they were intending to buy the bull but went about asking questions and opinions on the bull. They felt most thought the bull was too big.

Show day came and in a class of three he stood third, repeating his performance at the International Livestock Exposition in Chicago, where, as a senior calf, he stood at the bottom of his class under a noted Hereford judge. The 21st x's winnings were not something to excite one.

Sale day arrived. Still determined, the Gordons wondered "What will he bring?" His showing winnings hadn't been great, certainly. Would he sell cheap? Would some other people be excited at his size? What would happen?"

He entered the ring and Bob placed the two last bids. He was tremendously happy to buy this bull for what he felt was not near his value, only \$1,500. He was second top of the sale.

Some people liked the bull, of course, but by no means everyone. He certainly was a controversial bull to say the least. Bob called his brother Wayne and told him what a great Shorthorn he had purchased. Said Wayne, "Bob, he can't be that big and that good. You must be overly enthusiastic."

The bull came home. Looking at him, Wayne could not believe that there was a bull that was the kind that they had dreamed of owning. They did not know what his breeding ability would be, but they certainly knew that he had the individuality.

Four days later, on their way to the Brandon Spring bull sale, Bob and Wayne ran into Edgar Philpott, Butte Lee, Sask. He made some inquiries about Leader 21st x, but he had not been able to get to the Polled Congress. Philpott came to Kinnaber. The Gordons showed him all the cattle on the farm. At last they showed him Leader 21st x. They knew that if he once saw him, he wouldn't leave.

Upon seeing the 21st x, Philpott was immediately interested and had to have an interest. He made two or three offers. Needing money very badly, the Gordons certainly listened. They settled on a final offer of \$2,500 for a half interest in the bull. Philpott would have him in the prime breeding season, but he would be used artificially in both herds.

Very proud of the bull, the Gordons went to the Brandon Spring bull sale and boasted to fellow breeders how great a

bull he was. They will never forget the day three carloads of people came out to see him, not expecting to see a bull of his size and tremendous quality. They have since been told by friends that these men went back to Brandon quiet and surprised.

Never having seen the Thieman cattle, a year later the Gordons went by bus to Kansas City, Mo., where Harold Thieman met them. The Gordons until then, had never seen or heard of cattle as great as they felt the Thieman cattle were at that time. Bob Gordon was bubbling over with enthusiasm. When he saw Coronet Max Leader x and saw the mother of Leader 21st x, he felt he had never seen two individuals in his life that impressed him more. "Not only," said Bob, "have we a big bull, we have a breeding bull in Leader 21st x."

Leader 21st x went to the major Canadian shows that year under the Kinnaber colors. Would he win? Would he stand last? What would happen? Kinnaber showed him at many leading shows and in mixed competition. He was **never** defeated in class and was tremendously popular with the Canadian cattle breeders. What would happen next? Would he breed?

Showing him, Kinnaber did use him as heavily as possible the first year. But the next year he served more than 100 cows in the Kinnaber and Philpott herds.

The 74 calves that he left within a six-week period in the Philpott herd were the most uniform and tremendous calves Kinnaber said they had ever seen by one bull. These calves, having been seen by the American Breeders Service, inspired them tremendously. They felt they should take a stronger look at the Shorthorn breed. Here was a Shorthorn bull in which they must have an interest.

Negotiations started then and went on for two years. The 21st x subsequently was leased to American Breeders Service, where he became tremendously popular in the commercial field as well as in the purebred field.

The story of TPS Coronet Leader 21st x is of a sire of stock bulls that are breeding equally well as their sire . . . and of a line of cattle that has tremendous acceptance by ranchers . . . and by the entire beef cattle industry . . . and as a sire of cattle that have made unheard-of records on performance test. The story of TPS Coronet Leader 21st x could go on and on. The champions, the top sellers, the great sires and foundation females sold to so many other leading herds and the cattle selling June 13. But more important, consider the heritage to the world. Consider the re-evaluation in all of our Shorthorns he has caused. This is a "Breed Builder!"

The Astonishing

KINNABER MR. THIEMAN! x

How does one describe a bull you dreamed of raising but never really thought you would. Kinnaber Mr. Thieman! x is probably the greatest bull that has come along in the breed for some time. Mr. Thieman! x is the result of a planned mating by putting the incomparable TPS Coronet Leader 21st x with one of the breed's greatest cows. She is a daughter of TPS Coronet Leader 4th x (by Coronet Max Leader 3rd x, that went to the Bapton herd in Scotland), a bull equally as big as Leader 21st x. Mr. Thieman's dam is backed up in each line of her pedigree with big cattle. The Leader 4th x cows in the Kinnaber herd are some of the greatest polled cows the breed has ever known. Mr. Thieman! x has absolutely astonished leading breeders throughout the world, and we mean world. Livestock breeders from all over the globe have inspected and admired him. We have never owned a bull so many leading herds have wanted to buy. This is natural as he gives any progressive Shorthorn breeder so much enthusiastic desire to breed the best after seeing him. He will assure you that the breed can develop the great ones . . . greater than any other breed.

We consented to sell a one-half interest in Mr. Thieman! x to our friend Martin Nold, Weston Shorthorns, Gettysburg, S. D., with whom we share many other stock bulls.

Mr. Thieman! x will be used heavily in the two herds and his service will be a once-in-a-lifetime attraction with the Kinnaber females selling. We would have liked to have shown Mr. Thieman at leading shows. In all due respect to our fellow breeders and many other great Polled Shorthorn bulls, we think you'll all agree he would be hard to beat. But we just can't spare him from service to fit him for a show. It's a must to put him to work and keep

KINNABER MR. THIEMAN! x.

him there since he has so much to offer the breed. We must have his valuable service here and cannot risk his loss by some unforeseen circumstances on the show circuit. It is worth the trip alone to see this great young stock bull at Kinnaber at sale time. He'll remain at Kinnaber in 1970 where he will see heavy service throughout the year. Wouldn't it be great if you could own just one Kinnaber female carrying his service?

BIG GENE x (Kinnaber Leader 9th x)

KINNABER LEADER 9th x — (BIG GENE) — This 100% dehorner has proven himself to be one of TPS Coronet Leader 21st x's greatest breeding sons. After he did a tremendous job in the Harvey Fulton herd, a two-thirds interest was re-purchased for Kinnaber. He has been used very heavily since a year of age and he has really never had a chance to get into full flesh. He is a big, heavy-boned, great footed, sound stock bull of great length and cleanness. He has the look of a true stock bull. He has never missed a beat at siring great calves. They are moving out now to herds throughout America. Some tremendous calves are being developed in both the Kenmar and Kinnaber herds for the future. Here is a small example of the success his calves

have in other herds. At Pa-Do Polled Shorthorns, Kremlin, Oklahoma a half interest in one BIG GENE bull calf sold to the Deason herd in Oklahoma for \$2,500. And, other great calves, like the ones pictured, are going to develop into some of the breed's best.

Floyd Fredrickson of North Dakota has had great success with his Leader 9th x calves. Larry Wright, Brandon, S. D., recently purchased a wonderful bull calf by BIG GENE. Wayne Hinderliter of Illinois purchased a big, strong show heifer by him.

The calves at Kinnaber by GENE are developing into stock bulls and such strong, modern females that he is certain to play a big part in Kinnaber's future.

GEORGE THE GIANT x

KINNABER LEADER 3rd x (GEORGE THE GIANT) — This 100% dehorner is certainly one of TPS Coronet Leader 21st x's best sons. He is a bull everyone is talking about for size, great length, wonderful balance and above all, cleanness and muscling. He did a fabulous breeding job in the W. K. Legge herd and left some of the biggest progeny to be found anywhere in the breed. He sired the very big Green Bluff Millie x, the All-American and a winner at many major shows; Green Bluff Lady 4th x, certainly one of the biggest females for her age shown in 1969-70. He has left many fine sons, like Green Bluff Leader 7th x, sold to Earl Fieser in Kansas; Green Bluff Leader 15th x, a bull we assure you will make his mark at the 1970 shows, sold to Robert Ingersoll in California; Green Bluff Leader 10th x sold to Mr. Wilson in California. In this sale are two of his best sons, Kinnaber Genetic Leader x and Green Bluff Leader 14th x. With the cooperation of the W. K. Legge family and from our own herd, we have been able to offer many fine progeny of GEORGE to you. We'll continue to do so in the future. His females are among the best we ever owned . . . two are offered in this sale.

*The \$7,250 top of 300 bulls of all breeds at the
1969 Stanford Sale.*

Kinnaber Leader 20th x sold at \$7,250 for a half interest to Cherokee Ranch, Atlanta, Ga. His service is also planned for the future at Kinnaber and a full sister sells.

Other Kinnaber Stock Bulls . . .

We also own an interest in **Butte Lee Leader 73rd x** along with Tom Schrag; **Weston Trademark 2nd x** with Keith Croy and Val Kjernisted; Butte Lee Leader 63rd x, the massive **Tiny Tim** (Butte Lee Leader 63rd x) owned jointly with KC Farms and John McKee, Neepawa; **Kinnaber Leader 19th x**, owned jointly with W. K. Legge, and a full brother to the massive Kinnaber Emma Coronita x purchased by Acadia in last year's sale. These, along with our other tremendous sires, give Kinnaber one of the strongest herd bull batteries ever assembled.

NEW AT KINNABER

Kinnaber will never make the mistake of thinking it has all the great bloodlines in the world. We're proud of our cattle and gratified by their achievements, but we are constantly striving to improve and to offer even better new lines to our cherished old customers. In line with this policy, you'll be interested in the two newest bulls mentioned on this page.

THIS OUTCROSS POLLED BULL

Kinnaber has just completed negotiations for a 2,250-pound proved Polled Shorthorn stock bull that many of you will be familiar with. He's a 100% dehorner and already has left many great calves. He's a complete outcross to any bloodline now at Kinnaber. His purchase will be announced on sale day.

FF CORNERSTONE 7th was 1969 International supreme champion for Ashbourne Farms, LaGrange, Ky. He is a half brother to Kinnaber's newest stock bull, **FF Cornerstone 14th**.

FF CORNERSTONE 14th

New at Kinnaber is **FF Cornerstone 14th**, recently purchased from Fiess Farms, Edwall, Wash. He is a half brother to the 1969 International supreme champion Shorthorn bull for Ashbourne Farms, LaGrange, Ky., and he's certainly one of the best sons to date of **WSU Cornerstone 4th**. With his purchase, we also acquired a limited amount of semen from **WSU Cornerstone 4th**. Here is outcross blood for Kinnaber and its customers that will also provide a strong new source of Shorthorn blood for horned breeders.

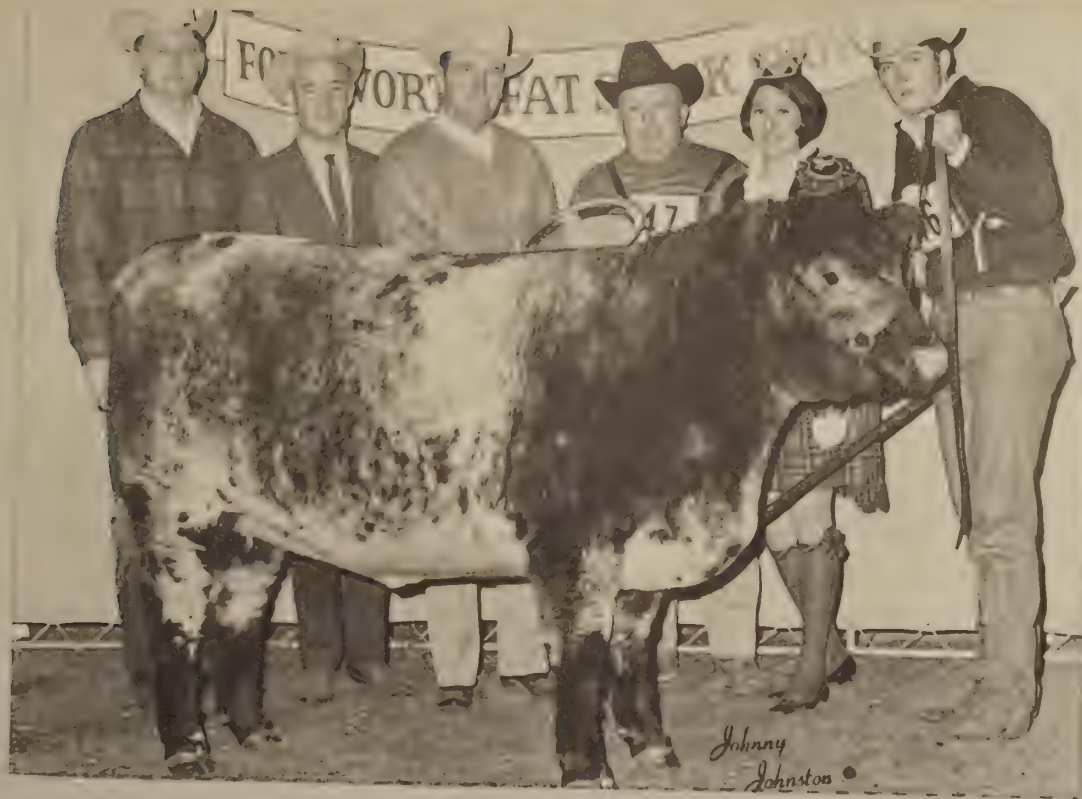

KINNABER LILY CORONITA x

International Reserve Grand Champion

A year ago the sale catalog said: "She could well be the female to beat in the 1969-70 shows. No matter what you pay for her, we are sure you won't sell her for twice that after the 1970 show season." Lily brought \$3,500 in the 1969 sale and is now owned by Packard Cattle Co., Elbert, Colo. She was grand champion at Houston, the Dixie National, the National Shorthorn Show, Fort Worth and the Midland Empire Fair. She was reserve grand champion at the National Western, the International Livestock Exposition, the American Royal. She won her class at Edmonton, Regina, Winnipeg, Brandon, Saskatoon and Calgary. All-American, of course.

KINNABER DANA CORONITA 3rd x
National Western Grand Champion

A year ago the sale catalog said: "She has the potential to write breed history." And she did. The top-selling Polled Shorthorn female in North America of the year, she sold at \$4,300 to Cherokee Ranch, Atlanta, Ga. She was grand champion of the National Western; reserve grand champion of the Colorado State Fair and Ft. Worth. All-American, of course.

T P S
CORONET
LEADER 21st x

The Winningest
SIRE OF
THE YEAR

TPS CORONET LEADER 21st x is the sire or grandsire of more prominent show winners in the last year than any other bull. In fact, more of his descendants have won in the last 12 months than those that most other bulls sire in a lifetime.

All-American
SENIOR GET
by
TPS CORONET
LEADER 21st x

No other get-of-sire has ever been exhibited as extensively or won as widely as that of TPS Coronet Leader 21st x. They won their class at the International Livestock Exposition, Dixie National, Fort Worth, American Royal, National Western, Houston and Regina.

KINNABER LEADER 27th

International Reserve Grand Champion

Kinnaber Leader 27th was International reserve grand champion for Chuck-O-Luck Farms, Boulder, Colo. He was grand champion at Fort Worth and the Midland Empire Fair; reserve grand champion at Edmonton and Regina, and first at the American Royal.

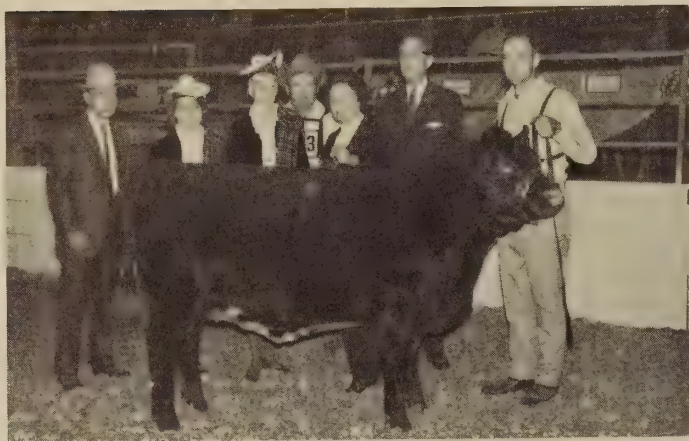

7M CORONET LEADER x

International Reserve Grand Champion

7M Coronet Leader x was International reserve grand champion for Glen Struve, Manning, Iowa, who now shares ownership with Johnson Brothers, Atlantic, Iowa. By TPS Coronet Leader 21st x, he also was grand champion of the Iowa State Fair; reserve grand champion of the International, National Shorthorn Show; junior champion of the American Royal and reserve junior champion of the National Western.

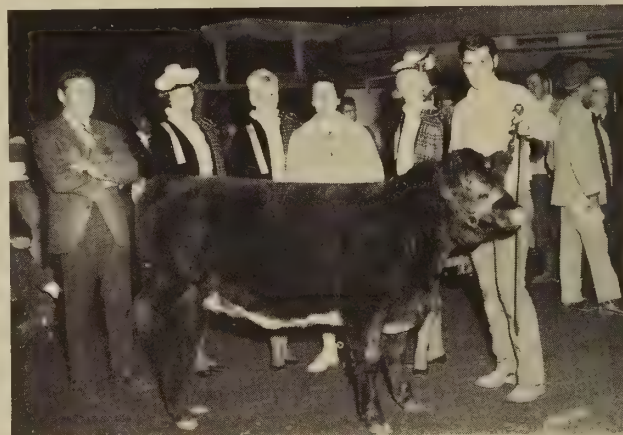

GREEN BLUFF LADY 4th x

Green Bluff Lady 4th x, left, sold in the 1969 sale to the late Ted Franklin and is now owned by KC Shorthorns, Kansas City. She was senior champion of the International Livestock Exhibition; grand champion of the American Royal; senior champion at the National Shorthorn Show and National Western; first in class at Edmonton, Calgary and Saskatoon.

BUTTE LEE FLORA 4th x

Butte Lee Flora 4th x, right, was purchased from Kinnaber by Acadia Farms, Northfield, Ohio. She went on to be reserve grand champion of the Eastern National and Dixie National; calf champion at Houston and the National Western; reserve calf champion of the International, Pennsylvania National and American Royal.

TOP OF THE WORLD AT THE CANADIAN INTERNATIONAL

At the world's leading consignment sale, the fabulous 1970 Canadian International, Kinnaber again set the records.

This year was the best Canadian International ever and its records stand at the top of all consignment sales of all time.

This year was the first year for females to sell at the Canadian International and Kinnaber consigned three. They averaged \$2,558 and two were open heifers! Included was the \$3,800 top female of the sale and the reserve grand champion.

Kinnaber will be back at the Canadian International in 1971 with some of the first sons of Big Gene x, (Kinnaber Leader 9th x).

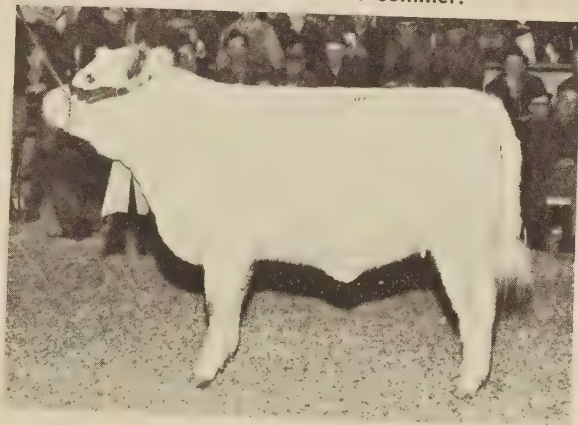

Left — Green Bluff Reta x by George the Giant x sold at \$1,575 in the 1970 Canadian International to Linderwood Stock Farm, Baltic, S.D.

Right — Weston Butterfly x by TPS Coronet Leader 21st x was reserve grand champion of the 1970 Canadian International and sold at \$2,300 to Packard Cattle Co.

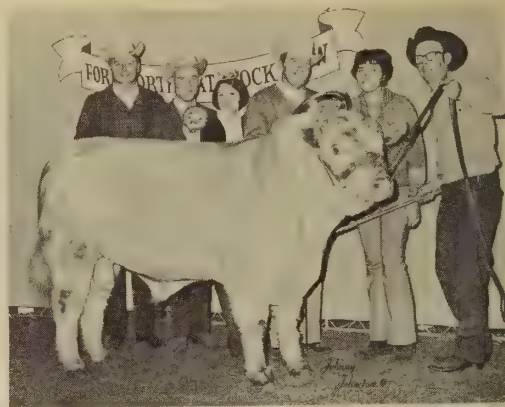

Kinnaber Claret Coronita 2nd x by TPS Coronet Leader 21st x set the record female top of the 1970 Canadian International when she sold for \$3,800 to Packard Cattle Co., Elbert, Colo., who will show her this summer.

Tiny Tim x, (Butte Lee Leader 63rd x) (left), was sold from Kinnaber to KC Shorthorns, Kansas City, Mo. He was grand champion at the Manitoba Provincial Exhibition, the Red River Exhibition and the Saskatoon Exhibition; reserve senior champion at Regina; first at the National Shorthorn Show and third at the International.

Kinnaber Leader 26th x was sold from Kinnaber to Don and Pat Stout, Kremlin, Okla. He was reserve grand champion of the Oklahoma State Fair, Fort Worth, Tri-State Fair; reserve junior champion of the Texas State Fair and junior champion of the Tulsa State Fair.

FILLET (Weston Trade Mark 3rd) by TPS Coronet Leader 21st x was shown by Acadia Farms, Northfield, Ohio. He was grand champion of the Pennsylvania National and Dixie National; reserve grand champion of the National Western, Eastern National, Ohio Futurity and American Royal; senior champion at Houston; first at the Ohio State Fair and Fort Worth; second at the International.

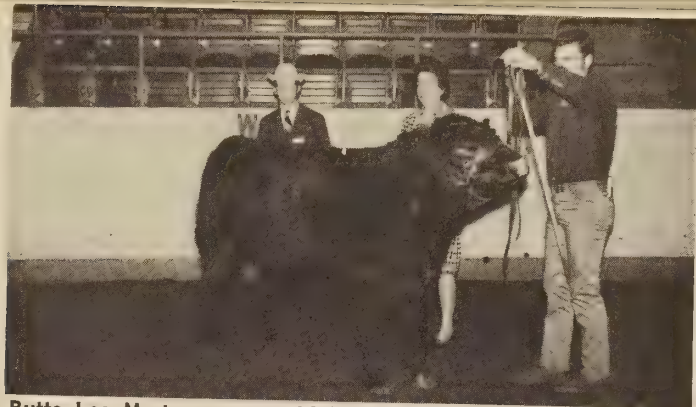

THE AMAZING SWEEP

No show cattle in recent years have excited the interest from Shorthorn and Polled Shorthorn breeders alike as the Polled Shorthorns that swept to victory in the nation's leading shows last year. They had sold in the 1969 Thomas, Gordon, Draper, Duncan sale!

Like a highly organized army, they swept the western Canadian shows and then went on to dominate every major American show in which they were entered. Look at the list: the Inter-

Butte Lee Leader's Image x was sold by Kinnaber to Vic and Donna Taylor, Yukon, Okla. He was reserve calf champion at the Fort Worth Stock Show.

Butte Lee Master x was sold by Kinnaber to Acadia Farms, Northfield, Ohio. He was reserve junior champion of the Eastern National, Pennsylvania National and Dixie National; second at the Ohio State Fair and Ohio Futurity; third at the National Western.

OF THE KINNABER LEADERS!

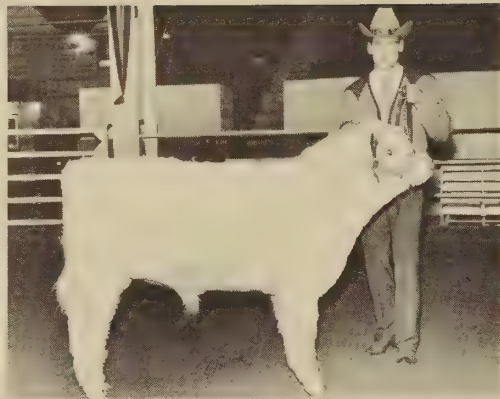

national, Denver, Houston, Ft. Worth, Dixie National, National Shorthorn Show, American Royal, Midland Empire, Edmonton, Regina, Winnipeg, Brandon, Saskatoon and Calgary.

In this section you'll find pictures of several that won for Kinnaber and its customers throughout the year. Large as this catalog is, however, there's little room to picture the countless champions sold by Kinnaber and exhibited by others.

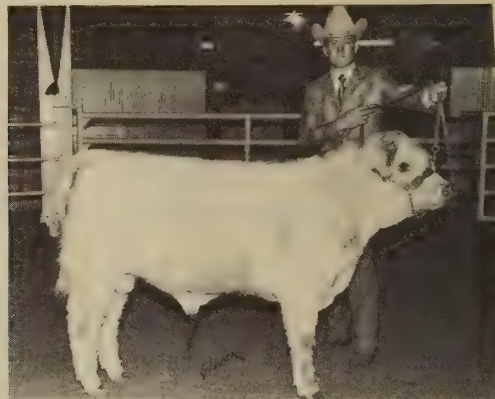

Butte Lee Leader 76th x was sold in the 1969 sale to Dr. and Mrs. Glenn R. Miller, Hannibal, Mo. He was reserve junior champion at the Dixie National; second at the National Western and International; third at the National Shorthorn Show and American Royal; best Saskatchewan bred bull at Regina.

Broadcurve Leader 2A x was sold by Kinnaber to Packard Cattle Co., Elbert, Colo. He was reserve grand champion at Houston; first at the National Western and second at Fort Worth.

Weston Good Fortune x was sold by Kinnaber to Packard Cattle Co., Elbert, Colo. He was first at the Dixie National; second at the National Western and Houston.

Big John (Butte Lee Leader 56th) sold from Kinnaber to KC Shorthorns and is now owned with the Packard Cattle Co. He was third at the American Royal, National Western and International.

NEVER HAS ONE LINE SO COMPLETELY

Never has there been an opportunity to equal that of June 13! On that day you'll have a chance to match wits with the most expert cattlemen in the world. Which will be the winners in the 1970-71 shows?

In the recent All-American nominations, 30 either sold from this sale in 1969 or were from the same bloodlines. This year all the stops are being pulled to surpass last year's record-breaking

Butte Lee Silver Lady x sold from Kinnaber to Hart Farm, Waxahachie, Tex. She was reserve grand champion of the East Texas Fair, Tri-State Fair, Texas State Fair; grand champion of the Louisiana State Fair; senior champion at Fort Worth; reserve senior champion at the Dixie National and second at Houston.

DOMINATED NATIONAL COMPETITION

auction. Not one of the good ones from any of the herds has been held back.

But no herds can continue such a policy indefinitely. There will be no sale next year so that the top females from this year's crop can be retained as replacements. This is your last opportunity for a time to buy these winners in quantity. Whatever they cost, they'll look like bargains when they begin to win. And, they'll look downright cheap when their calves start to arrive.

KINNABER CLIPPER SHERRY x

She was sold by Kinnaber to Vic and Donna Taylor, Yukon, Okla. Third prize spring heifer calf at Fort Worth.

Butte Lee Priscilla 3rd x was sold from Kinnaber to Hart Farm, Waxahachie, Tex. She was grand champion of the East Texas Fair; reserve grand champion at Houston; reserve junior champion at the Dixie National, Texas State Fair and first at Fort Worth and the Tri-State Fair.

Weston Trademark 2nd x is stock bull for Keith Croy and Val Kjernisted, Stonewall, Man. Kinnaber also owns one-third. The 2nd x is out of the same cow as Kinnaber Genetic Leader x, Lot 81.

Good Hope Silver Prince x by Weston Trademark 2nd x sold at \$2,400 in the 1970 Canadian International Bull Sale to Dr. and Mrs. Glenn R. Miller, Hannibal, Mo. His sire is out of the same dam as Lot 81.

KINNABER GENETIC LEADER x — Sale day will be his birthday. Many will remember this extremely long, white bull calf born the night before our 1969 sale. He is one of the really good herd bull prospects Kinnaber has offered this year. We feel this in itself is something because this past year we have sold more stock bulls to leading herds than possibly any other herd in America. Genetic Leader x is as long as they come. He has wonderful balance along with a strong head. He is sired by George the Giant (Kinnaber Leader 3rd x), two of whose sons we have just recently sold to California. Novel has never produced a poor calf. She is the dam of Snowball Junior, the big white bull that did so well for Martin Nold in South Dakota, who owns the Novel cow with us. We offer Genetic Leader x jointly with him to you. Novel is also the dam of Weston Trade Mark 2nd x, that we sold at a high figure to Croy & Kjernisted, Stonewall, Man. They sold his first son to Dr. and Mrs. Glenn Miller, Hannibal, Mo., for \$2,400 in the 1970 Canadian International. Genetic Leader is backed with the genetic material to breed on and produce cattle with lots of size and balance. We offer a one-half interest and possession in him, with an option to repurchase Genetic Leader x or have possession of him part time after three years. If we wish to draw semen in the meantime it will be at the buyer's convenience and our expense. Here is a herd bull that can breed on for the most demanding herds. We had first planned to keep Genetic Leader x in our herd bull battery, but to offer you only the best we are sharing him with you.

KINNABER GENETIC LEADER x, Lot 81.

GREEN BLUFF LEADER 14th x, Lot 82.

GREEN BLUFF LEADER 14th x — Kinnaber Leader 3rd x (George the Giant x) has established himself as a great breeding bull. His daughters have tremendous size and are called the biggest in the breed. He is an equal sire of big, strong sons — many of which will make outstanding stock bulls. We sold two excellent George sons to Robert Ingersoll and John Wilson of California recently and kept two of his best back for the sale — Kinnaber Genetic Leader x and Green Bluff Leader 14th x. Leader 14th x is a full-brother to the good white bull we sold Earl Fieser & Sons in Kansas in the 1969 Stanford, Montana Test Sale where he was our top-selling George son. Green Bluff Leader 14th x is a real top bull from big cattle that can head the best of herds and be a stock bull you'll be proud to show your fellow breeders. And, we'll bet you'll be even prouder to show his progeny to them!

Green Bluff Millie x by George the Giant x topped the Kinnaber consignment to the 1969 KC Production Sale at \$3,200 to Dr. A. R. Haight, Cumming, Ga. She is the first daughter of George x to sell at auction. Lot 82 is a paternal brother.

Has any herd ever bred as
many leading stock bulls
in the last decade as
Kinnaber?

TRUEVIEW MUSCULAR LEADER x, Lot 83.

*Kinnaber Bred the Top-Selling
Polled Shorthorn Bull and Female in Canada
in 1969 AND the Top-Selling
Bull and Female in the U. S. in 1969.*

TRUEVIEW MUSCULAR LEADER x — This dark red, very well-balanced son of Kinnaber Leader 16th x, possesses a lot of style, character and the look of a stock bull. He has good, well-placed legs with ample bone. His dam is by the Lonedale Conquest 2nd that topped the Regina bull sale a few years ago. He was one of the most talked-about bulls sold there for years. His size was so outstanding and so well accepted that it put a lot of the Saskatchewan breeders in search of Shorthorns with size and set them out to eliminate the small ones. That resulted in the fact that Saskatchewan today boasts more big bulls in the Regina sale than any other Shorthorn sale in America. Lonedale Conquest 2nd set an example that **big** bulls could be **good** bulls. Therefore, Muscular Leader x is backed by generations of big, useful cattle. We just recently sold a half brother by Kinnaber Leader 16th x that is a full-brother to Mighty Mr. Modern, to the long-established and noted Leemon Stock Farm, Hoopeston, Ill.

BUTTE LEE LEADER 91st x — Picture Butte Lee Leader 45th x that is doing such a fine breeding job in the Thomas herd. His calves are performing very well at the Manitoba Sire Indexing Station. Furthermore, they are the right kind. Leader 45th x got a slight founder as a young bull and it's hindered his development but it surely isn't hurting his ability to sire modern Polled Shorthorns. Leader 91st x is from a family of big cattle and is being sold in raw condition like Leader 87th x, but we'll bet that given a little time, he'll grow and breed beyond your expectations. He is a sleeper. Remember, we told you so. He will show much more potential than he displays on sale day.

Butte Lee Leader 45th x is one of the senior sires at Thomas Farms, Hartney, Man. He is a full brother to Lot 84.

BUTTE LEE LEADER 87th x, Lot 85.

BUTTE LEE LEADER 87th x— He is a very promising young bull from a consistent producing family. He was raised on the range at Edgar Philpott's without creep and isn't as far along as some of our other bulls. But he has potential and gives assurance of being a good breeding bull. The tremendous influence that Leader 21st x sons are having on the entire breed all over North America in producing bigger, longer modern Polled Short-horns is really fantastic. They just consistently win and are sale toppers wherever entered. Leader 21st x has given the breed a great lift. This young bull, although just really starting to come, can give your herd that big lift. Butte Lee Leader 70th x, sold under the same conditions in last year's sale to Dr. and Mrs. Glen Miller, developed tremendously and came on to win second in his class at both Chicago and Denver and was All-American. What a stock bull he has made. Leader 87th x is the same kind.

KENMAR MYRTLE 17A x, Lot 87.

KENMAR MYRTLE 17A x — One of the better females ever sold from Kinnaber, she will be very hard to beat at the 1970-71 shows, and we're not fooling. Not only is she sired by Kinnaber Leader 9th x, "Big Gene", but she also is from a dam sired by Hi-Way President x that was one of the really good polled bulls ever used anywhere. We offer this female jointly with Harvey Fulton of Manitoba. We must reserve show rights on this one and we guarantee it will take a good one to beat her. Only to make this an offering to remember do we even offer this great female. She is one of our best and one of the best in this or any breed.

SCHOOLVIEW JULIA — This grand brood cow would look good in any herd in America. She is the kind it hurts to sell but she is sure to give us a satisfied customer and pay off a few mortgages for her new owner. Her sire left many fine females in the Moellenbeck and Muirhead herds in Saskatchewan. Her 1969 heifer calf sold to Pat and Don Stout in Oklahoma. She'll calve May 12 to the 100% dehorning Kinnaber Leader 9th x. With a polled calf assured, we'll no doubt regret, after selling it, we ever offered this fine female.

Guthrie and Peter Packard, Elbert, Colo., purchased Broadcurve Leader 2A x and Weston Good Fortune x from Kinnaber. Both later became All-Americans.

KINNABER LEADER 28th x

This son of TPS Coronet Leader 21st x recently sold to Joe Sander, Wilkie, Sask.

THESE LEADING BREEDERS HAVE

Pictured here are just a few of the stock bulls sold privately by Kinnaber to leading herds throughout the United States and Canada.

Why have Kinnaber cattle done so well for their new owners? Because Kinnaber policy is to offer you only the best, selected from a large number to give you a complete choice. An animal you are going to have to send to market is sent to market by Kinnaber before anyone even tries to buy him. Kinnaber cherishes their satisfied customers and does everything in their power to insure the success of each Kinnaber animal in the hands of others.

The sensational Kinnaber Mr. Thieman! x. One half interest sold last winter to Martin Nold, Gettysburg, S. D.

BUTTE LEE LEADER 31st
BUTTE LEE LEADER 86th

Acadia has had great success with its former purchases from Kinnaber and we are confident that these three young bulls will do even better. See them in the Acadia show herd this summer and fall.

BETTY ROYON
Acadia
Vice President

TRUMAN
KINGSLEY
Acadia Manager

CYRUS EATON
Acadia Owner

BUTTE LEE LEADER 31st

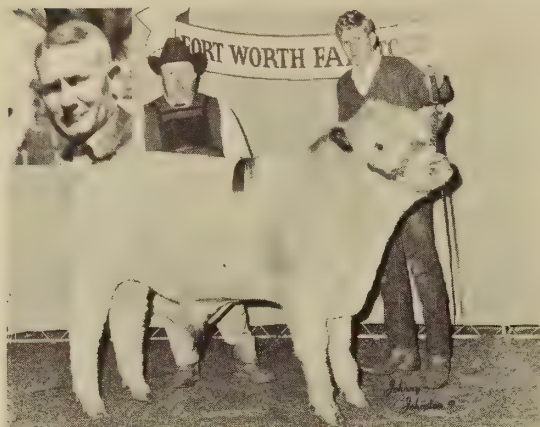

To Acadia went Butte Lee Leader 31st by TPS Coronet Leader 21st x and from one of the biggest cows the breed has ever known. Be sure to see him at the 1970 shows.

Left — Butte Lee Kinnaber Leader x is destined to be both shown and used by Acadia. Kinnaber retains an interest.

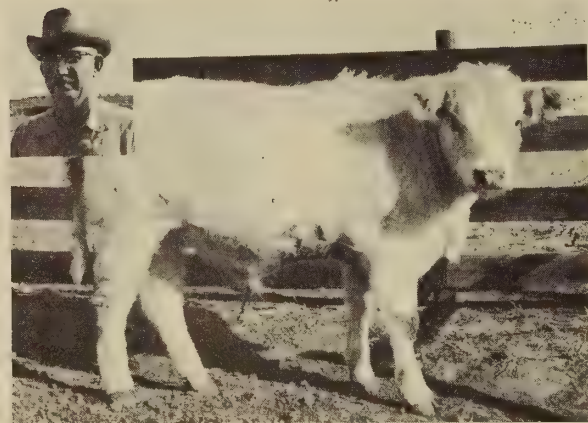

Right — Butte Lee Leader 86th by TPS Coronet Leader 21st x also sold to Acadia. He is a full brother to the All-American Big John x (Butte Lee Leader 56th x).

Left — Vic Taylor, Yukon, Okla., purchased the All-American Butte Lee Leader's Image x from Kinnaber. He's by TPS Coronet Leader 21st x.

Right — Trueview Statly Leader x went from Kinnaber to Chuck Leemon, Hoopston, Ill. The bull is by Kinnaber Leader 16th x, a full brother to Mighty Mr. Modern x.

Left — A. D. Murray, Pond Creek, Okla., is the owner of Kinnaber Leader 30th x by TPS Coronet Leader 21st x.

Right — Green Bluff Leader 10th x sold from Kinnaber to J. A. Wilson, Stockton, Calif.

LARRY HART

**BUCK
BARDWELL**

TO HART FARMS

Kinnaber is pleased to have just sold a polled son of TPS Coronet Leader 21st x to Hart Farms, Waxahachie, Tex. He follows Candun Leader 9th, also purchased from Kinnaber.

**WAYNE
HINDER-
LITER**

TO WAYNE HINDERLITER

A very promising show bull goes to Wayne Hinderliter, Albion, Ill. This well-known showman exhibited the best pair of females at the 1969 International.

Left—Butte Lee Leader 85th x recently sold from Kinnaber to Bob Miller, Fordville, N. D.

Right — Kinnaber Leader Gene 2nd x by Kinnaber Leader 9th x is now owned by Larry Wright, Brandon, S.D.

Green Bluff Leader 15th x recently sold from Kinnaber to Robert Ingersoll of California. The bull is by Kinnaber Leader 3rd x.

OKLAHOMA

Dear Friends:

We are pleased with most of our Thomas, Gordon, Draper, Duncan purchases, and they have many admirers here in Oklahoma. Our very successful show season was partially due to this same blood. Our many times grand champion, and All-American, Pa Do President Leader x is out of the beautiful, full sister to Leader 21st x. His calves are very modern and look good. Kinnaber Leader 26th x was right in there fighting for top spot but had to settle for second best, even at Ft. Worth where we took him in very thin out of an A.I. stud, just three days earlier. He weighed 1140 pounds at 365 days and has tremendous muscling. The four head by Clipper King of U.S.A. x did well in the shows winning the get-of-sire class at the Tulsa and Texas State Fairs. Kinnaber Clipper Stewardess x was champion female at the Tulsa and Texas State Fairs and reserve junior champion at two other state fairs before being All-American. She was probably the biggest heifer for her age on the show circuit this year. At only 21 months, she is as big as most of the Kinnaber cows and has run out with the cow herd most of the time.

Stewardess' mother is by Leader 21st x and has to be one of the really great producers. Her '69 calf, Kinnaber Leader Gene x, is by Kinnaber Leader 9th x and has tremendous potential. This double-bred Leader 21st x is right in every way and really looks good. We are fortunate that you sold us several daughters of Leader 21st x bred to Leader 9th x. A Leader 9th x daughter from Harvey Fulton's calved recently and it appears his daughters are going to make big, beautiful, heavy-milking cows. A Leader 9th x son from Fulton's has brought many lookers here and is too big to believe. His 365-day weight was 1,132 pounds indicating his fantastic muscling. He is a marvel of structural correctness and modern type.

Clipper King of U.S.A. x has amazed everyone who has seen him. Breeders are eager to buy his offspring and service. He consistently weighs more than a ton and his calves have this same ability to grow.

Last fall we purchased 37 three-way cross heifers in Montana sired by Leader bulls. Most of them were by Kinnaber Leader 13th x, a full brother to the many times champion Dana Coronita sisters. Several were by Weston Trade Mark x, a really great bull and full brother to our Leader 26th. These heifers will 'knock your hat off' for their great scale, conformation and size for age. They indicate the great breeding ability of Leader bulls and, of course, hybrid vigor.

With our many purchases of females from you, we have lucked several outstanding herd bulls by Leader 21st x and Leader 9th x along with several good young heifers.

Your satisfaction guarantee is second to none. It gives us a warm feeling to know you always back up the cattle you sell.

Clipper King of U.S.A. x and our Leader cattle are certainly causing a stir here in the Southwest and should help repopularize Shorthorns everywhere.

Have a good sale!

Kindest regards,

Don and Pat Stout
Pa Do Polled Shorthorns
Kremlin, Okla.

Here is what our customers have to say!

SASKATCHEWAN

Dear Bob and Wayne:

We are very pleased to inform you that the young Leader 21st x son that we purchased from you last year has exceeded all our expectations. He has developed into a very modern type bull, with lots of size, heavy bone and a very good set of feet and legs. His head, fleshing and quarters are excellent. In addition, he is an extra easy do-er and will surely be well over 1,750 pounds at 24 months.

Leader's calves have just started coming and, to date, they are very impressive. Each one has a great polled head.

We are proud to be owners of this great young bull. Ranchers, breeders and cattlemen have expressed their admiration for our young Leader.

We wish you continued success in raising such good Shorthorns and also a very successful sale.

Sincerely yours,

John Morari and
A. G. Calancie
Calder, Sask.

KANSAS

Dear Harris:

Green Bluff Leader 7th x, the bull we got at the Montana test station, was sired by Kinnaber Leader 3rd x, weaning weight 610 pounds, index 108.9. After his long ride to Kansas and getting adjusted, we started using him late in summer. He has kept right on growing, he really moves good, will weigh near 1,500 pounds now.

On his second birthday we showed him at the state fair at Hutchinson, where he was the biggest bull in the class. He placed second.

We weighed him two months ago, when he hit 1,320 pounds. Everyone who sees him is very impressed. Several want semen from him.

We have a couple grandsons of Galaxy that are very trim with a lot of muscle. One has 18.34 square inches of loin-eye.

Have a good sale!

Yours,

Earl J. Fieser
Norwich, Kan.

COLORADO

Dear Harris:

When we began in the Shorthorn and Polled Shorthorn business only last May, we made up our minds to add to the herd only the very best cattle that we could find. We wanted to definitely go with the trend for additional size, but we wanted to retain the quality of the animal in the process.

We first visited Kinnaber Stock Farms early last fall and found two outstanding prospects, Broadcurve Leader 2A x and Weston Good Fortune x. They began by standing first and second in Denver. Broadcurve Leader 2A x was reserve champion bull at Houston. These two future sires will be in the top of the show results for two years to come. With a need for the present as well as the future, we purchased one-half interest in Butte Lee Leader 56th from KC Shorthorns, who had purchased him from Kinnaber. He is also a fine son of TPS Coronet Leader 21st x. All three of these were recently nominated as 1969-70 All-American honors.

Keeping in mind the need for quality females in the herd, we purchased the fantastic winner and All-American Kinnaber Lily Coronita in Denver. She went on to be grand champion female at Fort Worth, Jackson, and Houston.

We were drawn to Brandon when we heard Kinnaber was adding two females to the first female sale there. These were typical of the high standard of Kinnaber females. We added Kinnaber Claret Coronita x and Weston Butterfly x to our show herd for this fall.

Our relationship with all the Gordons has been one that even now we can look back on with wonderful memories. We look forward to it continuing just that way!

Sincerely,

Packard Cattle Company
Guthrie and Peter Packard
Elbert, Colo.

MISSOURI

Dear Harris:

The bull we purchased from the Drapers, has been used very heavily, but has continued to develop and grow well. He is 24 months old now and we have several calves from him that look very promising.

Sincerely,

Harold and Edmond Taylor
Ridgeway, Mo.

SASKATCHEWAN

Dear Mr. Simons:

Last fall we purchased Leader Cub x from Gordon Bros. and we are very pleased with the way that he is developing out. He is a deep, thick, muscular, heavy-boned bull with plenty of length. This is the third polled bull that we have bought from the Gordons and we feel that "Cub" will cross very well with the daughters of the other two.

Yours truly,

Arthur & Harold Foulds
Edgecreek Shorthorns
Willowbrook, Sask.

TEXAS

Dear Harris:

We have made purchases at the Thomas, Gordon, Draper, Duncan Sale the past two years. Our only complaint is that we didn't start ten years ago!

Our first purchase was Bonnyview Daffodil 18Y x that went on to be grand champion at the International Livestock Exposition. She was the youngest in her class but the largest! She has a white heifer calf by TPS Coronet Leader 21st x that looks like a winner.

Butte Lee Constance x was a fortunate buy. She did her share of winning and has a most promising bull calf by the Kinnaber Leader 6th x that could be our next herd bull.

Last year we were the winning bidder on Butte Lee Priscilla 3rd x. She rewarded us with the reserve grand champion ribbon in Houston; grand champion at Tyler; reserve junior champion in Jackson, Miss.

Butte Lee Silver Lady x was reserve senior champion at the Dixie National and is bred to Kinnaber Leader 6th x. Both she and Priscilla x won All American honors.

Butte Lee Fixie x is looking good in our show string and has that extra size you find at Thomas, Gordon, Draper, Duncan.

Bob Gordon talked me into buying Candun Leader 9th by the 21st x when I said I didn't need another bull. Thank heaven Bob is too bull-headed to understand NO. Buck Bardwell wouldn't let me sell him for double the price today. His calves are young, but give all indications of great size.

Our latest acquisitions are Rothbury Queen of Beauty x and Kinnaber Winner x (by George the Giant). They are both in our show string and should make a good showing next year.

In addition to these, we have eight more daughters of the 21st x or his sons. We obviously are sold on the type sold in Souris.

Best of luck in your next sale June 13.

With best regards,

Larry A. Hart
Hart Farms
Waxahachie, Tex.

SOUTH DAKOTA

Dear Harris:

Thank you once again for purchasing Rothbury Dynamic Leader 7th x for us at the 1969 Thomas, Gordon, Draper, Duncan sale.

As you said and the judges of the Canadian shows confirmed, this bull has all the size, style and character of a great bull. Because of his continuing rapid development we are planning on showing him in the states this summer.

He is truly a cattleman's bull as well as a "show animal". We have nicknamed him "Romeo" because of his great amount of activity.

The Drapers are to be congratulated on having bred such a breed improver.

Thanks so much for buying him,

Ken James
Twin Horn Farms
Brookings, S. D.

NORTH DAKOTA

Dear Bob and Wayne:

I just got Butte Lee Leader 85th x home and he looks exceptionally good with our other yearling bulls. He has come a long way since last October when I first saw him. At that time he was a big framed, extremely long calf, not carrying much condition. Now he has filled out, deepened out and really has developed out into quite a bull. That he weighed 1,050 pounds at a year is excellent considering he lost his mother and was pail fed for six weeks.

We came to Kinnaber looking for a bull like the 85th x since TPS Coronet Leader 21st x is stamping that size, scale with length and smoothness consistently. This calf surely has this quality.

Sincerely,

Robert Miller
Lordville, N. D.

ALBERTA

Dear Bob and Wayne:

We have sold our last two-year-old bull by Kinnaber Leader 10th x at \$1,100 to Henry Joneson, Thomahawk, Alta., at the Edmonton Spring Bull Sale. Leader 10th x is producing very well -- his calves have the gaining and fleshing ability that is required today.

We are getting very satisfactory results from Leader 10th x and our Lacombe Dock 45W females. We will be getting Dock calves from the good Leader cows we have purchased from you and expect tremendous results from this combination.

Our first Kinnaber Clipper King 5th x, calf has just arrived and it sure looks good. Clipper King 5th x is extremely long and is well-muscled, no doubt that he will mate well with our females.

Sincerely,

William & Victor Melenka
Melbros Stock Farms
Andrew, Alberta

OKLAHOMA

Dear Bob and Wayne:

We really enjoyed our visit and tour of Shorthorn Country when we saw the herds of Kinnaber, Thomas, Draper, Gordon, Hatch and Fulton's. The cattle that we saw made every mile of the trip worthwhile.

Kinnaber Leader 30th x is doing his job very well. Of course, his job right now is to grow! And that he is doing! He is developing into a really promising herd bull with plenty of length, bone and scale along with an outstanding rear-end. We feel that we have the cows to bring out the best of the Leader 21st x breeding.

We were really pleased to read of the show winners among the Kodiak 2nd x's sons and daughters. But our son of Kodiak 2nd x, Kinnaber Kodiak 11th x, is home doing his job! We have bred several daughters of Sutherland Chieftain x to him and are looking forward to seeing the results. He is rapidly developing into a big, growthy bull with good muscling, scale and quality.

We appreciate that your interest in the growth and development and satisfaction in the bulls that Kinnaber sells doesn't stop with the sale of them. Thanks for your concern for these bulls and our herd.

Have a good sale. We wish we could be there.

Sincerely,

A. D. Murray
Murray's Polled Shorthorns
Pond Creek, Okla.

MONTANA

Dear Ross:

We've wanted to sit down and write you about the Thomas Leader 30 x calves so many times, but this is the only chance I've had to do it.

The three bulls we had by him last April scored the three highest 205-day weights of all -- including calves by two A.I. bulls. They were 619 pounds, 610 pounds and 568 pounds on home test. It looks like all three will go I.P.R. The one at 610 pounds is out of the same cow as the bull Ed and Aldyth Long bought at the Winter Fair, Cruchan Security Leader x. You thought this youngster looked too good too early but I have hopes he will still fool you. He has stretched out considerably this year and is a real credit to his sire.

We now have a full calf crop by Thomas Leader 30 x and I would say as a whole, they are the most uniform group we have ever had with some really outstanding heifers.

The big red polled cow that is the mother of the biggest bull calf Longs bought from us last fall (the one with the white spot on his forehead) just had a fantastically great looking red polled bull calf by Thomas Leader 30 x. He is easily her best calf to date. I want to mention that all of these calves are polled and we are very pleased with them.

Our weather was so nice and mild up until March 1 and since then we have had a yard of snow and raw north winds that set off scours something unreal. I hate to think what this will do to our weaning weights and it is going the rounds for the second time. That's the way the ball bounces however. The livestock losses have been fantastic from storms that last two weeks, so we aren't the only ones getting it.

Actually, our problem was bringing home the calves that we showed at the Montana Winter Fair. They had smelled noses over a tie rail with some Charolais and picked up shipping fever which went through the whole herd and raised Cain with our newborns and yearlings. At least we didn't get hoof and mouth disease from the imports. Arch is still chewing me out for taking out the calves -- not just sale bulls that wouldn't come home again. But I wanted to set up our Security Leader x bull for the Longs after they bought his calves from us. After the job his steer calves did at Billings N.I.L.E., it seemed a shame to me not to go the whole way if we could with the pair of white calves. They sure swept the board and created a lot of interest in our cattle. But the price has been dear, the loss of three dandy bull calves so far. Ah, well! I've learned my lesson and from now on it's one way with no return.

Ross, our Montana Beef Performance Ass'n, wants to know if we can get any copy of your official test in which Thomas Leader 30 x got his indexes? If so, this would go on his calves' record. Can you get a copy please?

Best regards,

Peg Allen
Livingston, Mont.

OHIO

Dear Harris:

In June of '69 we attended this sale and were most fortunate in acquiring Kinnaber Leader 21st x by TPS Coronet Leader 21st x. It was, for us, a big decision to make and a long distance to travel in seeking a new sire. Not alone did the fact of such wide acceptance by commercial cattlemen of the Leader bloodline influence our choice, but needless to say, their subsequent and tremendous success at all the major shows in '69 must surely attest to their abundant qualities in the purebred area as well.

In our particular section of Ohio the Shorthorn feeder has lost a great deal of popularity. Deserved or otherwise, the idea prevails that the Shorthorn just naturally quits at 900# or less. We have dealt with this attitude all too frequently. However, after seeing some of your cattle last June, it was obvious that the Shorthorn "just naturally" does not have to do anything of the sort. Not if they are bred right.

Consequently we are pleased to tell you that Kinnaber Leader 21st x has thus far met our expectations in his growth and development. We will use him this summer with some of our best cows and on a few select daughters from Sutherland Gay Crusader x our son of Captivator of Bapton x AAA. We are especially high on the potential results of this cross.

Thanking you again for the courtesy extended to us and wishing you repeated success in your '70 sale.

Very truly,

James E. Johnson & Son
J-Mar Farm
Cadiz, Ohio

NORTH DAKOTA

Dear Harris:

Having an opportunity to select mature cows from the herd in the forefront of the breed does not happen often. Therefore, we wasted little time getting to Kinnaber upon learning they could part with a few females.

Gordon Bros. have spared little in their quest for much greater size for the breed, and what a tremendous job they have done. Therefore, we felt this was the source from which to draw as I also am determined to raise cattle with much greater size. We feel the purchase of these eight cows will put us a step closer to the top of the ladder.

Wishing you a most successful sale.

Best regards,

Floyd Fredrickson
Welco Polled Shorthorns
Petersburg, N. D.

MISSOURI

Dear Bob and Wayne:

We are very happy with our two bulls Butte Lee Leader 76th x and Good Hope Maximus. They both are going to be tremendous bulls. They have grown out remarkably well and we can see improvement in them each day. We are very anxious for their calves to arrive.

With kindest regards,

Dr. and Mrs. Glenn R. Miller
Glennedale Farms
Hannibal, Mo.

KANSAS

Dear Harris:

The first calves by Butte Lee Leader 73rd x look great. They are by far the growthiest calves that we have ever had. A 100% dehornor, this young sire continues to grow and develop into one of the best.

Sincerely,

Tom Schrag
Burton, Kan.

NORTH DAKOTA

Dear Harris:

We're proud to be owners of the National Western Champion Kinnaber Dana Coronita 2nd x. She's a great female. With luck we hope to have her in our herd for a long time. We felt bad to lose her first calf and so did Gordon Bros., but those things happen. Gordon Bros. replaced her calf with a real good Clipper King x daughter, Kinnaber Clipper Clarice x, which is doing fine. This gives us two Clipper King x daughters. They are a fine pair.

The two Thomas heifers we purchased the same day we bought Kinnaber Dana Coronita 2nd x, by Coronet Max Leader x, are doing very well. Both will drop their second calves within the next month or so. One of the above heifers is mother of our other Clipper King heifer we spoke of above.

The Draper heifer we purchased in June 1969, is a good heifer too. She's by Kinnaber Leader 5th x and out of the imported Bapton Augusta Romina, and is bred to calve to Rothbury Sir Leader x, a bull we thought looked real good when we saw him last summer at the Drapers.

We here at Prairie Shorthorn Farm are still glad we attended the Thomas, Gordon, Draper sales of June 1968 and 1969 and are looking forward to being on hand again in 1970 to look over the offerings from these fine herds.

Prairie Shorthorn Farm
Harold Wenzel & Sons
Langdon, N. D.

ALBERTA

Dear Harris:

I am more than pleased with the way the two heifers are doing that I purchased from Gordon Bros. last year. They have grown into good, big females -- both look like they will calve soon. We are looking forward to the calves out of Leader 21st x.

Hope to see you all at the sale in June.

Yours truly,

R. D. Mackenzie
Mountain View, Alta.

MONTANA

Folks:

As you know my bulls were just yearling calves when they were purchased. I didn't keep them separate last year. They ran with five Hereford bulls in a herd of 150 Angus cows.

So far we have two calves from the two bulls. This year we intend to run them separately, as they are older and much larger. In another year we will have a big showing.

Sincerely,

Fred Bills
Dupuyer, Mont.

MANITOBA

Dear Harris:

With another one coming up, we would like to wish all concerned another outstanding sale this June 13.

Carig Maudette 3rd x, the dam of Mighty Mr. Modern x, our purchase in last year's sale, has proved to be a sound investment for us. The horned bull calf bought at side has come off performance test at over 1,000 pounds at a year old, and should be one of the greatest horned bulls by Leader 21st x. We feel that he will more than pay for our investment. Furthermore, on his birthday, Maudette presented us with a full-brother, only polled this time. He looks every bit as promising as her calf last year. Few cows have produced as consistently as she has! Our previous purchases, both private and at the Thomas, Gordon, Draper, Duncan sales have proved to be wonderful investments also.

Sincerely,

Val Kyernistied and
Keith Croy
Stonewall, Man.
